PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided **phone, email, and chat-based technical support** to enterprise customers, resolving an average of 15 tickets per day within a 24x7 operational environment.
- Developed and refined **standard operating procedures** for common eCommerce and SaaS issues, contributing to a 12% increase in first-contact resolution rates across the team.
- Collaborated with **product management and engineering teams** to identify and escalate critical bugs, influencing the prioritization of over 30 product enhancement requests.
- Assisted customers with **billing and account management** inquiries, ensuring accurate invoice reconciliation and timely resolution of financial discrepancies for approximately 20 accounts weekly.
- Authored technical documentation and **user guides** for new feature rollouts, enabling proactive customer onboarding and reducing inbound support volume by 18% for affected functionalities.
- Analyzed customer-reported issues using **web language debugging** (HTML, CSS, JavaScript) and data structure understanding to diagnose root causes for complex platform integrations.

SKILLS

Support & Operations – Technical Support, eCommerce Best Practices, SaaS Technologies, Billing Inquiries, Account Management, 24x7 Environment, Customer Service, Problem Solving, Professionalism, Teamwork, Written Communication, Verbal Communication, Critical Thinking, Self-Service Resources, Google-fu, Product Advancements

Web Technologies – HTML, CSS, JavaScript, JQuery, Web Languages, Data Structures

Programming & Scripting – Python, Java, Spring Boot, REST APIs, SQL

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux

Development Tools & Methodologies – Git, Jenkins, Jira, Confluence, Agile/Scrum, Code Reviews

Data Analysis & Visualization – Power BI, Tableau, DAX, Power Query, Data Modelling, Business Intelligence

PROJECTS

Customer Onboarding Automation for SaaS Platform

- Developed a **Python-based automation suite** to streamline the initial setup process for new SaaS customers, reducing average onboarding time from 5 days to 2 days.
- Created interactive guides and **walkthroughs using HTML and JavaScript**, demonstrating core platform functionalities and best practices for ~50 new client accounts.
- Integrated automated data validation checks for customer-provided configuration details, catching 85% of common errors before manual review by the support team.

E-commerce Analytics Dashboard with Power BI

- Designed and implemented an **interactive Power BI dashboard** to visualize key eCommerce performance metrics, including conversion rates, average order value, and customer acquisition cost.
- Developed complex **DAX measures and Power Query transformations** to aggregate data from multiple sources, providing actionable insights to the marketing and sales teams.
- Published and maintained the dashboard on the Power BI service, facilitating regular reporting for over 10 business stakeholders and enabling data-driven decision-making.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021
