+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • Stamp 1G — Full-Time Work Eligible

PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and commissioned automation control systems for diverse industrial machinery, integrating **Rockwell Automation** PLCs and associated HMI interfaces.
- Engineered **Python** scripts to automate data extraction and reporting from manufacturing execution systems, improving report generation times by approximately 40%.
- Supported the deployment and integration of new **Java Spring Boot** services into existing enterprise architectures, ensuring seamless data flow across interconnected systems.
- Managed change control processes for system configuration updates in production environments, coordinating UAT and post-go-live support across multiple interconnected systems.
- Analyzed and resolved production incidents for enterprise applications using **Splunk** and **Dynatrace**, contributing to SLA adherence for critical operational workflows.
- Designed and deployed **Power BI** dashboards to visualize key performance indicators for manufacturing operations, enabling stakeholders to make data-informed decisions.

SKILLS

Automation Technologies – Rockwell, Ignition, Siemens, VBA, Robotics, Safety Standards

Cloud & Virtualization – VMware, Cisco Networking

Programming Languages – Python, Java, SQL, C#

Development Tools & Practices – Spring Boot, REST APIs, Docker, Git, Jenkins, Jira, Confluence, Agile/Scrum

Databases – PostgreSQL, MySQL, Oracle, OSI PI Historian

Data Analysis & Visualization – Power BI, DAX, Power Query, Tableau, R, pandas, NumPy

Operating Systems – Linux, Windows

PROJECTS

Industrial Machine Automation Control System (HCL Technologies)

- Developed custom control logic and HMI screens in **Rockwell Studio 5000** for a new robotic assembly cell, reducing manual assembly time by 22%.
- Implemented **Python**-based data logging for machine performance metrics, capturing approximately 5,000 data points per hour for performance analysis.
- Managed system documentation and change requests throughout the project lifecycle, ensuring compliance with internal quality standards.

Manufacturing Data Analytics Dashboard (MSc Project)

- Designed and built an interactive **Power BI** dashboard to visualize real-time production data from simulated manufacturing processes.
- Extracted and transformed data using **Power Query** and wrote complex **DAX** measures to calculate OEE (Overall Equipment Effectiveness) and throughput.
- Presented the dashboard and key findings to a panel of academic and industry advisors, demonstrating an 18% improvement in anomaly detection speed.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
