PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Produced and revised detailed **3D engineering drawings** using **SolidWorks** for bespoke architectural metalwork projects, supporting the sales team's quotation preparation.
- Assisted estimating teams with **material take-offs** and preliminary design reviews, contributing to the preparation of customer quotations for fabricated steel products.
- Supported project delivery by generating and managing **bills of materials** and production documentation, ensuring accuracy for fabrication workflows.
- Maintained accurate **drawing revisions** and production records in line with company quality procedures for batch traceability.
- Recorded and allocated **engineering and design hours** accurately to projects, supporting commercial tracking and operational efficiency goals.
- Liaised with internal production teams to coordinate technical requirements and resolve design queries during fabrication.

SKILLS

CAD Software – SolidWorks, AutoCAD

Engineering Documentation – 3D Models, 2D Drawings, Bills of Materials, Works Orders

Project Support – Material Take-offs, Cost Estimates, Quotation Preparation, Batch Traceability, Revision Control

ERP Systems – Statii (working knowledge)

Collaboration – Internal Production Teams, Estimating Teams, Sales Teams, Customer Design Managers, Architects

Core Engineering – Mechanical Engineering Principles, Product Design, Manufacturing Processes, Fabrication

PROJECTS

Bespoke Metalwork Design and Documentation (HCL Technologies)

- Generated detailed **3D models and 2D fabrication drawings** in SolidWorks for custom steel and aluminum structures, ensuring adherence to client specifications.
- Developed comprehensive **bills of materials** and production documentation, streamlining the handover process from design to the manufacturing floor.
- Collaborated with project managers to track design hours and ensure timely delivery of drawing packages for multiple concurrent architectural metalwork projects.

Modular Systems Design Automation (HCL Technologies)

- Assisted in standardizing design components for modular systems by creating reusable **design libraries** within SolidWorks, reducing design time for repeat elements.
- Supported continuous improvement initiatives by documenting design workflows and identifying opportunities for **design automation** to enhance efficiency.
- Participated in production reviews to gain practical understanding of fabrication processes, informing design iterations for improved manufacturability.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
