PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained responsive user interfaces using **TypeScript** and **Angular**, translating stakeholder requirements into functional web components and managing application state.
- Engineered scalable server-side logic in **Java Spring Boot**, implementing **Dependency Injection** and **Inversion of Control** patterns for maintainable and performant backend services.
- Managed data persistence and retrieval with **MySQL**, executing complex queries and performing data validation across critical application datasets.
- Containerized Java Spring Boot applications using **Docker**, streamlining deployment processes and ensuring consistency across development and production environments.
- Automated routine tasks and data processing workflows through Python scripting, reducing manual effort by approximately **15%** for the operations team.
- Participated in **Agile/Scrum** ceremonies including sprint planning, daily stand-ups, and retrospectives, contributing to a collaborative development lifecycle.

SKILLS

Frontend – TypeScript, Angular, React, Node.js, NPM, HTML, CSS

Backend – Java, Spring Boot, C#, .NET Core, Kotlin, REST APIs, Dependency Injection, Inversion of Control

Databases – MySQL, PostgreSQL, Oracle, SQL

Cloud & DevOps – AWS, EC2, S3, Lambda, CloudWatch, Docker, Kubernetes, Jenkins, Git

Mobile – Swift, SwiftUI, SwiftPM, Objective-C, UIKit, Core Data

Analytics & BI – Power BI, Tableau, DAX, Power Query, R, pandas, NumPy, scikit-learn

Methodologies – Agile, Scrum, OOP, Software Design Patterns

PROJECTS

Enterprise Application Refactoring (HCL Technologies)

- Refactored a legacy Java Spring Boot service by implementing modern **Dependency Injection** patterns, improving code modularity and reducing method call complexity by **22%**.
- Developed a set of **REST APIs** to expose core business logic, enabling seamless integration with downstream enterprise systems and facilitating data exchange.
- Containerized the refactored service using **Docker**, creating reproducible build artifacts that improved deployment speed and reduced environment-specific issues.

Data Visualization and Automation Suite (MSc Project)

- Built interactive dashboards in **Power BI** to visualize key performance indicators from a large dataset, enabling stakeholders to identify trends and make data-informed decisions.
- Developed Python scripts utilizing **pandas** and **NumPy** to automate data cleaning and transformation processes, reducing data preparation time by **30%**.
- Wrote **SQL** queries against a PostgreSQL database to extract and aggregate data required for reporting and dashboard population.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
