PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and implemented **Python**-based features for core **ObjectScale platform** components, contributing to the full software development lifecycle from design to maintenance.
- Developed detailed **technical designs** and comprehensive **documentation** for new storage platform capabilities, ensuring clarity and adherence to company standards.
- Investigated and executed **proofs of concept** for modern **networking solutions**, exploring advancements in areas like Ethernet and Infiniband.
- Implemented and enforced **company quality and security standards** across the development process, ensuring robust and reliable platform delivery.
- Analyzed and resolved complex production issues within **enterprise Java/.NET applications**, managing SLAs and responding to P1/P2 incidents across **Splunk** and **Dynatrace**.
- Automated data ingestion and ETL processes using **Python scripting**, supporting scheduled reporting and data validation tasks on **PostgreSQL** and **Oracle** databases.

SKILLS

Core Development – Python, C, Java, Spring Boot, REST APIs, Docker

Operating Systems & Infrastructure – Linux Kernel, Drivers, Containers, Early Boot, AWS (EC2, S3, Lambda, CloudWatch)

Storage & Networking – ObjectScale, PowerScale, Ethernet, Infiniband, Storage Systems

Development Practices – Agile/Scrum, CI/CD, Jenkins, Git, Code Reviews, Jira, Confluence

Data & Analytics – SQL, PostgreSQL, MySQL, Oracle, Power BI, DAX, Power Query, Data Modelling

Problem Solving – Analytical, Debugging, Problem-Solving, Scripting, Shell Scripting

Tools & Observability – Splunk, Dynatrace

PROJECTS

ObjectScale Platform Feature Development (HCL Technologies)

- Engineered new features for a distributed object storage system, focusing on data integrity and high availability using **Python** and **Java Spring Boot**.
- Developed **REST APIs** for inter-service communication within the storage platform, improving data access efficiency by approximately **18%**.
- Contributed to **CI/CD pipelines** using **Jenkins** for automated testing and deployment, reducing manual deployment time by **30%**.

Linux System Automation and Monitoring Suite (HCL Technologies)

- Created automated **Python scripts** for system health checks and log analysis on **Linux** servers, reducing manual checks by **4 hours** per week.
- Implemented **Splunk** dashboards to visualize critical system metrics and alert on anomalies, providing early detection for an average of **3** potential incidents per month.
- Developed shell scripts for routine maintenance tasks and **cron job** scheduling, enhancing operational efficiency for the production environment.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
