PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Liaised with enterprise clients to gather requirements and deliver preliminary designs for building and infrastructure projects, translating needs into actionable specifications.
- Reviewed and approved detailed design drawings and technical reports prepared by graduate engineers, ensuring adherence to project standards and client expectations.
- Managed the procurement process for site investigation and civil engineering contracts, coordinating with vendors and evaluating proposals to meet project timelines.
- Administered construction contracts, meticulously tracking design requirements, project schedules, and budget adherence to ensure successful project delivery.
- Prepared and assessed tender documents, collaborating with project managers to select suitable contractors and manage contractual obligations.
- Developed and maintained project documentation, including reports and specifications, using a variety of software packages to support project lifecycle.

SKILLS

Design & Engineering – Building Design, Infrastructure Design, Civil Engineering, Structural Engineering, AutoCAD 2D, AutoCAD 3D, Building Information Modelling (BIM), Autodesk REVIT

Project Management & Procurement – Project Management, Tender Preparation, Contract Administration, Construction Contracts (PWMF Forms), Project Schedules, Project Budgets, Procurement

Software & Tools – MicroDrainage, Microsoft Access, ArcGIS, MapInfo, Microsoft Project

Communication & Collaboration – Client Liaison, Interpersonal Skills, Written Communication, Verbal Communication, English

Data Analysis & Reporting – Reporting, Data Validation, Technical Reports, Data Modelling

PROJECTS

Infrastructure Design & Client Consultation (HCL Technologies)

- Collaborated with a financial services client to define requirements for an operational dashboard, translating business needs into technical specifications for system enhancements.
- Prepared preliminary design reports for infrastructure upgrades, detailing proposed solutions and technical feasibility using standard engineering documentation practices.
- Assisted in the procurement of software packages and services for internal development teams, evaluating vendor offerings against technical requirements.

Building Systems Integration & Reporting (HCL Technologies)

- Developed Python scripts to automate data extraction and reporting for enterprise business systems, facilitating change management processes and UAT coordination.
- Designed and implemented REST APIs for cross-system data flows between ERP modules and operational platforms, ensuring seamless integration and data consistency.
- Generated detailed technical reports on system performance and incident analysis using SQL queries against PostgreSQL and Oracle databases.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
