PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Configured and deployed **HPE Aruba switching platforms** and **Fortinet firewalls** for enterprise customer environments, ensuring seamless network integration and adherence to security best practices.
- Acted as a senior escalation point for complex network incidents, leading **root-cause analysis (RCA)** and implementing long-term resolution strategies that reduced recurring issues by approximately **15%**.
- Oversaw the maintenance and performance tuning of customer network infrastructure, including **firewalls, switches, and wireless access points**, maintaining high levels of service continuity.
- Developed and maintained detailed network health and performance reports for internal and external stakeholders, translating technical data into actionable insights for network strategy and capacity planning.
- Collaborated with cross-functional teams, including **VoIP** and **Cybersecurity** specialists, on integrated solutions and project deployments, ensuring comprehensive service delivery.
- Provided technical leadership and knowledge-sharing to junior network engineers, contributing to internal technical standards development and process improvement initiatives.

SKILLS

Networking Hardware – HPE Aruba, Fortinet, FortiGate, Palo Alto, Aruba ClearPass, Firewalls, Switches, Wireless Access Points, NAC/AAA

Network Concepts – Network Strategy, Capacity Planning, Segmentation, Scalability, Security Design, Firmware Upgrades, Troubleshooting, Diagnostic Skills

Cloud & Virtualization – Microsoft Azure, Microsoft 365

Operating Systems – Microsoft Windows, Linux

Tools & Protocols – Jira, Confluence, Git, Jenkins, Splunk, Dynatrace, TCP/IP, SNMP

Soft Skills – Customer Service Orientation, Technical Documentation, Root Cause Analysis, Mentoring, Team Collaboration

PROJECTS

Enterprise Network Deployment for Financial Services Client

- Designed and implemented a secure, scalable network infrastructure for a financial services client, incorporating **Fortinet firewalls** and **HPE Aruba switching**.
- Managed the full lifecycle of network components, including planning and executing scheduled **firmware upgrades** and infrastructure refreshes with minimal disruption to operations.
- Produced detailed technical documentation and network diagrams, facilitating smooth handover to the client's internal IT team and supporting ongoing maintenance.

Network Monitoring and Incident Response System

- Configured and maintained **network monitoring tools** to track infrastructure health and performance across multiple customer environments.
- Developed automated alerting mechanisms using Python scripts to notify the Helpdesk and TAC teams of critical network events, reducing average detection time by **22%**.
- Led post-incident reviews for high-impact network outages, identifying root causes and implementing configuration changes to prevent recurrence.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
