PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Executed manual and exploratory tests for new features in consumer-facing PC applications, ensuring adherence to quality standards and functional requirements.
- Designed, executed, and maintained comprehensive test cases based on product specifications and user stories, improving test coverage by **15%** for assigned modules.
- Participated actively in release validation, performing thorough regression and smoke testing cycles to identify critical defects before deployment.
- Clearly documented and reported defects in **Jira**, collaborating with software engineers to facilitate swift investigation and resolution, reducing bug resolution time by **10%**.
- Maintained essential test documentation and contributed to the enhancement of test plans and procedures to support continuous quality improvement.
- Collaborated with cross-functional teams, including product managers and software engineers, to gather requirements and support User Acceptance Testing (UAT) for enterprise systems.

SKILLS

Testing Methodologies – Manual Testing, Exploratory Testing, Regression Testing, Smoke Testing, Test Case Design, Test Execution, Defect Reporting, Release Validation

Tools & Technologies – Jira, Confluence, Git, Jenkins, Splunk, Dynatrace, Linux Shell Scripting, AWS

Programming & Scripting – Python, Java, SQL

Operating Systems – Windows Desktop Applications, Linux

Data Analysis & BI – Power BI, Tableau, DAX, Power Query

Development Practices – Agile/Scrum, CI/CD, REST APIs, Spring Boot

PROJECTS

Windows Application Quality Assurance Framework

- Developed a structured manual testing approach for a Windows-based desktop application, defining clear test case templates and execution protocols.
- Executed end-to-end test cycles, identifying and documenting **~50+ defects** across functional, UI, and performance areas, leading to improved application stability.
- Collaborated with the development team to triage issues, provide detailed reproduction steps, and verify fixes, contributing to a smoother release process.

Automated Data Validation Scripting for Enterprise Systems

- Authored **Python scripts** to automate data validation checks across interconnected enterprise systems, reducing manual effort by approximately **30%**.
- Integrated validation scripts into a **Jenkins** CI/CD pipeline to provide early feedback on data integrity during system updates and deployments.
- Wrote and maintained technical documentation for the validation scripts, including setup instructions and expected output, enabling easier adoption by operations teams.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
