PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and implemented **agentic workflows** using **LLMs (Claude, OpenAI)** and **MCP clients/servers**, orchestrating tools via **OpenAI specifications** to automate developer tasks.
- Developed user-facing features in **ReactJS** and built backend services in **Node.js** for seamless **agent integration**, processing approximately **1,500 events** per hour.
- Engineered **prompt engineering** strategies and defined **tool schemas**, managing agent context windows and implementing retrieval strategies to enhance reliability across **~500 agent invocations** daily.
- Integrated AI agents with **GitHub Actions** for automated PR comment bots and utilized **Claude model endpoints** for content generation tasks, reducing manual review time by **18%**.
- Shipped reusable **UI components** for agent invocation and status visualization using **TypeScript**, ensuring adherence to design systems and **accessibility standards**.
- Authored comprehensive **OpenAI/MCP spec contracts** and developer guides for internal consumers, improving onboarding efficiency for new feature integrations by **30%**.

SKILLS

AI/ML & Agents – LLMs, OpenAI, Claude, MCP, Agentic Workflows, Prompt Engineering, Tool Orchestration, Function Calling, Retrieval Strategies, RAG Pipelines, Embeddings, Vector Stores, Prompt Versioning, Model Evaluation

Frontend Development – ReactJS, AngularJS, TypeScript, JavaScript, UI Components, Accessibility, Design Systems

Backend Development – Node.js, Python, REST APIs, GraphQL, NestJS, FastAPI

Developer Tools & Platforms – GitHub Actions, Cline, Docker, Jenkins, Git, Jira, Confluence

Data & Observability – SQL, PostgreSQL, Data Modelling, Logs, Metrics, Traces, Datadog, OpenTelemetry

Testing & Deployment – Unit Testing, E2E Testing, Jest, Cypress, CI/CD, Code Reviews

PROJECTS

AI-Powered Developer Workflow Automation

- Developed a **ReactJS** frontend application to manage and monitor AI agent runs, integrating with a **Node.js** backend that orchestrates calls to **OpenAI** and **Claude** models.
- Implemented **function calling** and **tool definitions** for agents to interact with developer ecosystems, including a **GitHub API** integration for automated code review summaries.
- Designed and documented the architecture for agent communication and state management, enabling cross-team adoption and reducing average task completion time by **22%**.

Intelligent Code Assistant Integration (HCL Technologies)

- Built a **Python** service to process and route code-related queries to an internal AI model, acting as a middleware for a developer productivity tool.
- Engineered **REST APIs** for communication between the assistant service and frontend clients, handling approximately **800 requests** per day.
- Developed basic **unit tests** and integrated with **Jenkins** for automated deployment of the assistant service, contributing to a more efficient development cycle.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
