PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Responded to an average of 45 inbound telephone and email queries daily, diagnosing and resolving ICT issues for end-users.
- Created and managed **user accounts** in **Active Directory**, including new account setup, access level adjustments, and account deactivation for departing employees, processing approximately 20-30 requests per week.
- Provided **remote assistance** to users across multiple locations, troubleshooting **Windows O/S** (Desktop and Server variants), **Microsoft Office Applications**, and bespoke business applications.
- Performed PC imaging and setup for new hardware deployments, ensuring consistent configurations and timely readiness for staff, averaging 5-7 setups per week.
- Managed user **application access**, handling upgrades and downgrades based on role changes and project requirements, with an average of 10-15 such requests weekly.
- Executed **backup and restore** operations for critical user data and system configurations, adhering to established recovery point objectives and ensuring data integrity.

SKILLS

Operating Systems – Windows Server (2011/2016/2019), Windows 10/11

Directory Services – Active Directory, DNS, DHCP, Group Policies, Users, Groups, OU's

Microsoft Technologies – MECM, Microsoft Exchange (2013/2016/2019), SharePoint, Microsoft Office Applications

Virtualization & Remote Access – Citrix Workspace, Citrix Director, Netsupport, SafeNet Remote Access Management

Communication & Collaboration Tools – Webex, Jabber, Teams, Zoom

Hardware & Imaging – PC Imaging, Smart device set-up/support

Application Support – Bespoke Application Support, File-share, User Access Management

PROJECTS

User Account and Access Management System

- Developed a Python script to automate the creation and management of user accounts within **Active Directory**, reducing manual effort by approximately 60% for new joiner processes.
- Implemented logic to manage user application access, including permission upgrades and downgrades, processing over 100 unique access change requests per month.
- Integrated with internal ticketing system (Jira) to track and report on user account lifecycle requests, ensuring auditability and timely resolution of support tickets.

Desktop Deployment and Configuration Tool

- Engineered a PC imaging and setup process using a combination of shell scripting and configuration management tools to standardize desktop environments.
- Streamlined the deployment of new machines, enabling IT support staff to prepare approximately 8-10 workstations per day for end-users.
- Documented the imaging procedure and troubleshooting steps, creating a knowledge base that reduced average setup time by 20% for the support team.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
