PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Coordinated with central and regional IT teams to maintain consistent **application support** services and procedural adherence for enterprise systems.
- Provided **user support** for functional applications and internal reporting tools, resolving ~45 tickets per week and ensuring smooth operation of business systems.
- Organized and verified the delivery of **user application training** materials, contributing to improved operational effectiveness across a team of 15 analysts.
- Participated in user **test sessions** for system enhancements, executing test cases and validating functionality against documented requirements.
- Suggested improvements for **SAP logistics modules** and related applications to senior analysts, contributing to a 15% reduction in recurring support incidents.
- Prepared comprehensive **project documentation**, including user manuals and test case outlines, in collaboration with key users and business analysts.

SKILLS

SAP – Logistics Modules, ECC, S/4HANA, Application Support, System Integration

Project Management – Project Planning, Coordination, System Delivery, Change Management, Documentation

Business Processes – Supply Chain, Planning, Forecasting, S&OP, Distribution, Replenishment

Technical Skills – Python, Java, SQL, REST APIs, AWS, Docker, Linux, Git, Jenkins

Data & Analytics – Power BI, Tableau, DAX, Power Query, Data Modelling

Enterprise Systems – ERP Support, Middleware Platforms, API Integration

PROJECTS

SAP ECC to S/4HANA Migration Support (HCL Technologies)

- Supported a phased migration project from SAP ECC to S/4HANA, focusing on key logistics modules and data integrity checks.
- Developed Python scripts to automate data validation and reconciliation tasks between the legacy ECC system and the new S/4HANA environment, reducing manual effort by 40%.
- Assisted in coordinating user acceptance testing (UAT) for migrated modules, documenting defects and tracking resolution with the project management office.

Supply Chain Operations Dashboard (HCL Technologies)

- Developed and maintained a **Power BI dashboard** to visualize key supply chain metrics including inventory levels, order fulfillment rates, and supplier performance.
- Extracted and transformed data from disparate sources (PostgreSQL, Oracle) using Power Query, creating robust data models for reporting.
- Collaborated with business analysts to define reporting requirements and presented dashboard insights to operational teams, enabling better decision-making for replenishment strategies.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
