PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided **technical support** for enterprise-level **hardware and software**, resolving approximately **15-20 support requests** per week prior to escalation.
- Implemented and modified **existing applications** based on user requirements, ensuring seamless integration with core business systems.
- Managed the patching and security updates for a fleet of over **150 desktop and laptop computers**, maintaining the highest available software levels.
- Documented and updated all user queries and resolutions within the **incident logging system**, improving tracking accuracy by **20%**.
- Conducted follow-up sessions with users to confirm that their **software and hardware needs** were fully met, achieving a **95%** user satisfaction rate.
- Collaborated with IT Services Manager on implementing and supporting various **enterprise-level systems and technologies** for a large local user group.

SKILLS

Hardware & Software Support – Desktops, Laptops, Printers, MS Office Support, Technical Support, IT Support, Hardware Support

Operating Systems – Windows, Linux

System Administration – Patch Management, Software Deployment, Incident Logging, Change Management

Networking – TCP/IP, DNS, DHCP

Cloud Technologies – AWS (EC2, S3, Lambda, CloudWatch)

Programming & Scripting – Python, Java, SQL, Spring Boot

Databases – PostgreSQL, MySQL, Oracle

PROJECTS

Enterprise Application Support Enhancement (HCL Technologies)

- Automated routine production support tasks for enterprise applications using **Python scripting**, reducing manual intervention by **35%**.
- Developed and maintained **Java Spring Boot REST APIs** for inter-service communication, supporting data exchange across multiple enterprise systems.
- Managed and analyzed logs from **Splunk and Dynatrace** to identify root causes for production issues, contributing to a **15%** reduction in critical incident response time.

Business Systems Integration and Reporting (HCL Technologies)

- Supported integration efforts between ERP modules and other operational platforms, ensuring data consistency across systems using **SQL**.
- Created automated reporting solutions using **Python and SQL** to extract and present operational data, streamlining data validation processes.
- Coordinated change-control management for system configuration updates, including UAT support and post-go-live troubleshooting for interconnected systems.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
