PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Performed Planned Preventative Maintenance (PPM) on mechanical and electrical building systems at a large-scale educational facility, ensuring operational continuity for **~5,000 students**.
- Responded to and resolved emergent breakdown requests across the facility, minimizing downtime for critical building infrastructure and achieving an average **resolution time of 45 minutes** for P1 incidents.
- Supported installation and upgrade projects for HVAC and air conditioning units, coordinating with external vendors and internal facilities teams to ensure seamless integration.
- Operated a range of hand tools, power tools, and access equipment, adhering strictly to health & safety protocols and completing all tasks within designated safety parameters.
- Maintained accurate digital records of all maintenance activities, parts usage, and equipment status within the facility's asset management system, supporting **quarterly compliance audits**.
- Assisted with Pool Plant Operations, including water quality testing and system checks, under direct supervision and after completing provided training modules.

SKILLS

Maintenance & Operations – Planned Preventative Maintenance (PPM), Breakdown Response, Installation Support, Mechanical Systems, Electrical Systems, Electronic Systems, Workshop Machinery Maintenance, Lathes, Mills, Drills, Compressor Maintenance, AHU Maintenance, Air Conditioning Maintenance, Marine Maintenance, Boat Handling

Health & Safety – Compliance Procedures, Infection Control, Safe Operation of Tools, Access Equipment

Record Keeping & Audits – Accurate Record Keeping, Audit Participation

General IT Skills – PC Skills, Data Entry, Record Management

Soft Skills – Adaptability, Decision Making, Teamwork, Communication (Verbal & Written), Flexibility

PROJECTS

Building Systems Reliability Enhancement (HCL Technologies)

- Automated routine checks and log analysis for building management systems using **Python scripting**, reducing manual oversight by an estimated **15 hours per week** for the operations team.
- Developed REST APIs in **Java Spring Boot** to integrate disparate monitoring tools, providing a unified view of system health for a critical financial client's operations dashboard.
- Refactored SQL queries in **PostgreSQL** to optimize data retrieval for transaction monitoring, improving report generation speed by an average of **22%**.

Automated Reporting for Enterprise Systems (HCL Technologies)

- Created automated Python scripts to extract, transform, and load data from multiple enterprise databases (**Oracle, MySQL**) into a central repository for scheduled reporting.
- Designed and implemented weekly operational status reports using **Power BI**, visualizing key performance indicators for system uptime and incident response times for internal business stakeholders.
- Managed CI/CD pipelines using **Jenkins** for automated deployment of reporting scripts and dashboard updates, reducing manual deployment time by **40%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
