PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and operated **high-scale backend services** using **Java Spring Boot**, focusing on **microservices architecture** and **operational excellence**, integrating with internal data platforms.
- Participated in **agile sprint planning** and estimation processes, contributing to **use case specifications** and reviewing **test plans** for new feature development.
- Diagnosed and resolved **performance issues** in production systems by analyzing **application logs** and monitoring metrics via **Splunk**, reducing P1 incident resolution time by an average of **18%**.
- Wrote and debugged **Python scripts** for automating ETL processes and scheduled reporting, processing approximately **50GB of data** daily for operational teams.
- Collaborated with cross-functional teams to integrate internal systems with a new **Data Fabric**, ensuring seamless data flow and accessibility for analytics.
- Implemented **CI/CD pipelines** using **Jenkins** and **Git** for automated code deployment to development environments, reducing manual deployment errors by **30%**.

SKILLS

Programming Languages – Java, Python, JavaScript, SQL

Backend Technologies – Spring Boot, J2EE, Microservices, REST APIs, SOA

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch), GCP, Azure

DevOps & Tools – CI/CD, Jenkins, Git, GitHub, Docker, Maven, Gradle, Jira, Confluence

Databases – PostgreSQL, MySQL, SQL Server

Frontend – HTML, CSS, Javascript, Angular, Bootstrap

Testing & Monitoring – Unit Testing, Performance Testing, JUnit, Selenium, Splunk, Dynatrace

PROJECTS

Enterprise Application Performance Monitoring and Automation

- Engineered **Python automation scripts** to streamline log analysis and data validation for critical enterprise applications, reducing manual effort by **~20 hours per week**.
- Developed and maintained **Java Spring Boot microservices** for internal system integrations, ensuring reliable data exchange and adherence to API specifications.
- Configured and managed **Splunk dashboards** to provide real-time operational visibility and alerting for production environments, enabling faster incident response.

Cloud-Native Application Development & Deployment

- Built and deployed scalable backend services on **AWS Lambda** and **EC2**, leveraging **Docker** for containerization and consistent environments.
- Implemented **CI/CD pipelines** using **Jenkins** and **Git** for automated testing and deployment, decreasing release cycles from bi-weekly to **daily sprints**.
- Contributed to the design and implementation of **RESTful APIs** for inter-service communication, improving system modularity and maintainability.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
