## PROFESSIONAL EXPERIENCE

### Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided first and second-level IT support for over 1,000 staff across multiple sites, resolving approximately **30-40 tickets daily** via phone, email, and remote desktop.
- Configured and installed new hardware, mobile devices (**iOS, Android**), and peripherals for end-users, ensuring seamless integration with existing infrastructure.
- Conducted user handover and briefing sessions for laptops, mobiles, and tablets, focusing on efficient device operation and basic troubleshooting.
- Managed the end-to-end lifecycle of ICT support calls, accurately logging all incidents and escalations in **Jira** for tracking and resolution.
- Supported users with **Windows 11** operating systems and the **Microsoft 365** suite, troubleshooting common issues related to applications, email, and connectivity.
- Collaborated with senior support staff to escalate and resolve complex technical issues, ensuring timely resolution within defined SLAs.

## SKILLS

**Operating Systems** – Windows 11, Linux

**Productivity Suites** – Microsoft 365 (Outlook, Word, Excel, Teams, SharePoint)

**Hardware & Mobile** – Device Configuration, iOS, Android, Laptops, Peripherals

**Support Tools** – IT Helpdesk Ticketing Systems, Remote Desktop, Jira, Confluence

**Networking & Connectivity** – TCP/IP Troubleshooting, Wi-Fi, VPN basics

**Scripting & Automation** – Python, Shell Scripting

**Cloud Platforms** – AWS (EC2, S3, Lambda)

## PROJECTS

### Enterprise Device Deployment & User Onboarding

- Managed the deployment of over **150 new Windows 11 laptops** to staff across multiple departments, including OS configuration, software installation, and network setup.
- Developed and delivered **user onboarding guides** and brief training sessions for new hires on essential software, hardware, and IT policies, reducing initial support requests by **~20%**.
- Coordinated with external vendors for hardware procurement and warranty claims, ensuring timely replacement of faulty peripherals and devices for a team of 50+ users.

### Internal IT Support Automation with Python

- Developed a **Python script** to automate the generation of daily IT support ticket summaries from **Jira**, saving approximately **2 hours** of manual work per week for the support team.
- Created shell scripts to automate log collection from Linux servers for troubleshooting, improving the efficiency of incident diagnosis by an estimated **15%**.
- Integrated basic API calls using **Java Spring Boot** to check service status for critical internal applications, providing quick health checks for the helpdesk.

## EDUCATION

### M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

### B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021
