PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed vulnerability remediation and security patching processes across a fleet of **Windows Server 2019/2022** instances, reducing critical vulnerabilities by **45%** over six months.
- Designed and implemented **high availability** and **disaster recovery solutions** for mission-critical enterprise systems, ensuring **99.95% availability**.
- Provided escalation support for complex technical issues, resolving an average of **15 P1/P2 incidents** per month within SLA targets.
- Mentored and guided **two junior support staff** on system administration best practices and incident response protocols.
- Developed and tested **fail-over and resilience strategies** for core services, successfully simulating recovery scenarios for critical applications.
- Monitored infrastructure and security performance using **Splunk** and **Dynatrace**, proactively identifying and addressing potential bottlenecks to meet SLA requirements.

SKILLS

Microsoft Technologies – Windows Server 2019/2022/2025, Active Directory, Group Policy, Windows 11

Infrastructure & Security – Cyber Security, Vulnerability Remediation, Security Patching, High Availability, Disaster Recovery, Audits, Compliance, ITIL

Cloud & Virtualization – AWS (EC2, S3, Lambda, CloudWatch), VMware

Scripting & Automation – Python, REST APIs, Bash Scripting, Cron Jobs

Databases & Storage – PostgreSQL, MySQL, Oracle, NetBackup, Storage Technologies

Operating Systems – Linux (RedHat/OEL), Unix

Monitoring & Support – Splunk, Dynatrace, P1/P2 Incident Response, SLA Management, Change Management

PROJECTS

Secure Microsoft Infrastructure Deployment

- Designed and deployed a secure **Microsoft-based infrastructure** for a new enterprise client, incorporating **Active Directory** and **Group Policy** for centralized management.
- Implemented robust security controls and patching mechanisms across **Windows Server 2022** instances, reducing identified vulnerabilities by **38%** prior to go-live.
- Created comprehensive technical documentation for system configuration, operational procedures, and audit compliance, supporting regulatory requirements.

Automated IT Operations and Monitoring

- Developed **Python scripts** to automate routine system administration tasks, including user provisioning and log analysis, saving approximately **10 hours** of manual work per week for the operations team.
- Configured **Splunk dashboards** to monitor key performance indicators and security events across a hybrid cloud environment, enabling faster incident detection and response.
- Integrated **REST APIs** to streamline data flow between various IT systems, improving efficiency in change management processes and system updates.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
