PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed the complete lifecycle of laboratory samples, including internal movement, external shipment coordination, and critical aliquoting activities for **enterprise customers**.
- Administered all sample-related documentation, processing receipt of external sample results and performing accurate entry onto **LIMS**, ensuring compliance with **GMP** and data integrity standards.
- Generated detailed **environmental monitoring and water analysis reports**, delivering key quality and business metrics to stakeholders and clients.
- Responded to ad-hoc requests for sample pulls and sample-related information, providing essential support to laboratory analytical personnel to ensure uninterrupted service delivery.
- Collaborated with client personnel and suppliers to meet or exceed project requirements, ensuring delivery against client processes and deliverables within a regulated laboratory environment.
- Identified and communicated opportunities for process improvement and operational efficiency within the sample management workflow, contributing to enhanced team productivity.

SKILLS

Laboratory Operations – Sample Management, GMP, Data Integrity, LIMS, Aliquoting, Reference Material Inventory Management

Reporting & Analysis – Environmental Monitoring Reports, Water Analysis Reports, Business Metrics, Quality Metrics

Core Technologies – Python, SQL, Java, Spring Boot, REST APIs, AWS

DevOps & Tools – Docker, Linux, Git, Jenkins, Jira, Confluence

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, R, pandas, NumPy, scikit-learn

Domain Expertise – Financial Services Operations, ERP Integration, Production Support, Incident Response, Change Management

PROJECTS

Sample Lifecycle Management System Enhancements (HCL Technologies)

- Developed Python scripts to automate the logging of incoming external sample results into a client's **LIMS**, reducing manual data entry time by approximately 40% per batch.
- Designed and implemented a new reference material inventory tracking system using **PostgreSQL** and **Flask**, improving stock accuracy and reducing lead times for material requests by 2 days.
- Created interactive **Power BI dashboards** to visualize sample throughput, turnaround times, and adherence to key quality metrics for laboratory operations.

Automated Reporting for Operational Metrics (HCL Technologies)

- Engineered automated data extraction and reporting pipelines using **Python** and **SQL** to generate daily operational summaries for a financial services dashboard.
- Integrated data from multiple sources, including transaction logs and system health checks, into a consolidated report, ensuring data integrity and timely delivery to business analysts.
- Implemented error handling and validation routines to ensure the accuracy of generated reports, supporting critical decision-making processes for the operations team.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
