PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed samples throughout the laboratory lifecycle, including internal movement and external shipment for analysis, coordinating complex sample pulls and aliquoting activities for a **biotechnology client**.
- Administered all sample-related documentation, including receipt and review of external sample results and accurate entry onto **LIMS**, ensuring completion in line with **GMP** and data integrity requirements.
- Generated **environmental monitoring** and **water analysis reports**, delivering agreed quality and business metrics to support client operational needs.
- Responded to ad-hoc requests for sample pulls and sample-related information, supporting laboratory analytical personnel and ensuring uninterrupted **service delivery**.
- Initiated and maintained all documentation, systems, and training records in accordance with company, client, safety, housekeeping, and **quality standards**.
- Worked collaboratively with client personnel and suppliers to meet or exceed client requirements, ensuring delivery against client processes and deliverables, and demonstrating flexibility to support any area of the business as required.

SKILLS

Laboratory Operations – Sample Management, Aliquoting, Reference Material Inventory Management, Sample Tracking, GMP Compliance, Data Integrity

Reporting & Analysis – Environmental Monitoring Reports, Water Analysis Reports, Business Metrics, Process Improvement, Operational Efficiency

Documentation & Systems – LIMS, Documentation Management, Training Records, Quality Standards, Regulatory Compliance

Collaboration & Support – Client Collaboration, Supplier Management, Cross-functional Teams, Stakeholder Engagement, Ad-hoc Requests

Core Technologies – Python, SQL, Java Spring Boot, AWS, Linux, Jenkins, Jira, Confluence, Splunk, Dynatrace, Power BI, Tableau, R, Pandas, NumPy, Scikit-learn

PROJECTS

Sample Management Workflow Optimization (HCL Technologies)

- Designed and implemented an automated sample tracking system using **Python scripting** and **PostgreSQL** to manage sample lifecycle, reducing manual data entry errors by approximately **18%**.
- Developed standardized operating procedures (SOPs) and documentation for sample receipt, processing, and reporting, ensuring adherence to **GMP** and data integrity guidelines for a financial services client.
- Created interactive **Power BI dashboards** to visualize key sample management metrics, including turnaround times and backlog, providing actionable insights to operations teams.

Laboratory Data Reporting Automation (MSc Project)

- Built automated data pipelines using **Python (Pandas)** and **SQL** to aggregate and process laboratory test results from disparate sources for generating analytical reports.
- Developed a suite of reports using **Power BI**, incorporating **DAX measures** for complex calculations, to present environmental monitoring and water analysis data to academic stakeholders.
- Conducted exploratory data analysis using **R** to identify trends and anomalies in historical laboratory data, supporting hypothesis testing for process improvement initiatives.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
