PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Administered all sample-related documentation, including receipt and review of external sample results and accurate entry onto **LIMS**, ensuring all records were completed on time, legibly, and in line with **GMP** and data integrity requirements.
- Generated environmental monitoring and water analysis reports, delivering agreed quality and business metrics and proactively identifying opportunities for **process improvement** and operational efficiency.
- Managed samples throughout the laboratory lifecycle, including internal sample movement, external shipment for analysis, coordination of complex sample pulls, and **aliquoting activities** for a team supporting **analytical tasks**.
- Responded to ad-hoc requests for sample pulls and sample-related information, supporting laboratory analytical personnel and providing cover for other members of the PSS team to ensure **uninterrupted service delivery**.
- Maintained all documentation, systems, and training records in accordance with company, client, safety, and quality standards, initiating training where appropriate and escalating any deviations or discrepancies to management.
- Collaborated with client personnel and suppliers to meet or exceed client requirements, ensuring delivery against client processes and deliverables and demonstrating flexibility to support any area of the business as required.

SKILLS

Laboratory Operations – Sample Management, GMP, Data Integrity, Aliquoting, Environmental Monitoring, Water Analysis Reports

Data Management – LIMS, Documentation, Record Keeping, Data Entry, Reporting

Process Improvement – Operational Efficiency, Process Optimisation, Quality Standards, Regulatory Compliance

Collaboration & Communication – Client Relations, Stakeholder Engagement, Teamwork, Cross-functional Collaboration

Core Skills – Time Management, Organisation, Attention to Detail, Problem Solving

PROJECTS

Sample Lifecycle Management System (HCL Technologies)

- Developed a Python-based system to track samples from receipt to disposal, integrating with existing **Jira** tickets for status updates and automating the generation of sample pull logs.
- Implemented data validation checks for sample metadata entry into a **PostgreSQL** database, reducing data entry errors by approximately **28%** and improving downstream reporting accuracy.
- Designed and documented standard operating procedures for sample handling and inventory management, which were adopted by the operations team to ensure consistent adherence to **regulatory guidelines**.

Operational Reporting Dashboard (HCL Technologies)

- Built a suite of **Power BI** dashboards to visualize key operational metrics for a financial-services client, including transaction volumes, error rates, and SLA adherence across 12 critical services.
- Engineered Python scripts to automate the ETL process for daily reporting data, consolidating information from multiple SQL databases (**PostgreSQL**, **MySQL**) into a centralized data mart.
- Collaborated with business analysts to gather reporting requirements and refine DAX measures, leading to a **15%** improvement in report generation speed and enhanced data-driven decision-making for the operations team.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore,
India**

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
