PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided **1st to 2nd level IT support** for client infrastructure, resolving issues such as **password resets** and **printer problems**, achieving a **78% first-call resolution rate**.
- Monitored and maintained proactive health checks for **client backups** and critical systems, ensuring data integrity and minimal disruption.
- Installed and configured **PCs and IT hardware** on customer sites as part of offsite project tasks, supported remotely by Level 3 engineers.
- Communicated issue resolution processes, including next steps and timeframes, to clients and end-users, maintaining **high customer satisfaction**.
- Managed incoming support requests via **phone and email**, prioritizing and escalating issues to ensure timely resolution according to SLAs.
- Administered user accounts and permissions within **Microsoft Active Directory** and managed **Microsoft Office 365** services for end-users.

SKILLS

IT Support & Operations – 1st/2nd Level Support, Incident Management, Ticket Management, SLA Management, Customer Service, Proactive Monitoring, System Health Checks, Change Management, Onsite Support, PC Installation, IT Audits

Operating Systems – Windows 11, Windows Server

Microsoft Ecosystem – Microsoft Office 365, OneDrive, Active Directory Administration

Networking Fundamentals – Network Patching, Switches, Wireless Installations, Troubleshooting

Hardware Support – Laptop Support, Desktop Support, Mobile Hardware Support

Tools & Technologies – Jira, Confluence, Splunk, Dynatrace, Git, Jenkins

PROJECTS

Client System Health Monitoring Dashboard (HCL Technologies)

- Developed a **Power BI dashboard** to visualize the health and performance of client IT infrastructures, integrating data from monitoring tools.
- Configured **Power Query** to ETL data from multiple sources, enabling real-time tracking of system availability and backup success rates.
- Presented key performance indicators and alerts to internal operations teams, facilitating quicker identification and resolution of potential issues.

Automated IT Support Ticket Prioritization (HCL Technologies)

- Engineered a **Python script** to parse incoming support emails and automatically categorize and prioritize tickets based on keywords and sender information.
- Integrated the script with the ticketing system via its **REST API**, reducing manual triage time by approximately **30%** for the support team.
- Implemented basic natural language processing techniques to identify critical issue keywords, improving the accuracy of automated prioritization.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
