PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Documented and executed high-quality **test plans** for functional areas within a custom development environment, ensuring alignment with agreed strategies and traceability back to requirements.
- Analyzed complex requirements and reviewed acceptance criteria to confirm fitness for purpose and testability, guiding the development of explicit test cases.
- Executed comprehensive **functional, regression, and integration test scripts** across backend systems, identifying defects and contributing to resolution discussions.
- Interrogated underlying **PostgreSQL databases** to extract test data and execute complex SQL statements to validate test results and system behavior.
- Developed and executed technical tests focusing on the **load and performance** of the solution, ensuring it met expected operational benchmarks.
- Contributed to management reporting by providing key **test metrics** on planning, defect status, and execution progress, supporting risk escalation to appropriate levels.

SKILLS

Testing Concepts – Test Planning, Test Execution, Regression Testing, Integration Testing, Functional Testing, Defect Triage, Test Metrics, Acceptance Criteria, Risk Escalation

Backend & API Testing – API Automation, Backend Systems Testing, Terminal Configuration Services, Device Parameters, Versioned Configurations

Databases & SQL – SQL, PostgreSQL, Database Interrogation, Test Data Extraction

Automation & CI/CD – Automation Frameworks, Jenkins, GitLab, CI/CD Pipelines

Programming Languages – Java, JavaScript, TypeScript, Python

Domain Experience – Fintech, Payments Domain, Payment Terminal Platforms, Cards Processing, Backend Processing Systems

Agile & Collaboration – Scrum Team, Jira, Confluence, Gerrit, Git

PROJECTS

Payments Terminal Backend Integration Testing

- Designed and executed integration tests for a **payments terminal backend**, focusing on configuration service interactions and versioned parameter validation.
- Wrote complex **SQL queries** against a PostgreSQL test database to verify data consistency and state changes following terminal operations.
- Collaborated with development teams within a **scrum framework** to analyze defects and refine acceptance criteria for upcoming feature sprints.

Fintech Application Performance Testing

- Developed and executed **performance tests** for a core fintech backend service, simulating concurrent user loads to identify bottlenecks and measure response times.
- Scripted automated tests using **Java and REST Assured**, integrating them into a Jenkins pipeline for regular execution against staging environments.
- Documented findings and provided actionable insights on performance improvements to the engineering lead, contributing to a **15% reduction** in p95 latency.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
