PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Administered and supported the **IBM WebMethods integration platform**, including Integration Server and API Gateway components, ensuring high availability for critical business processes.
- Managed the **build and release process** across multiple non-production and production environments, coordinating deployments and environment configurations with development and QA teams.
- Built and maintained **CI/CD pipelines** using **Jenkins** and **Git** for the WebMethods platform, streamlining the deployment workflow and reducing manual intervention by approximately 40%.
- Provided **operational support** for the integration platform, including monitoring system performance with **Splunk** and **Dynatrace**, managing upgrades, patching, and troubleshooting incidents to perform root cause analysis.
- Implemented **automation scripts in Python** and **Bash** to improve release processes and automate repetitive operational tasks, leading to an estimated 30% reduction in manual effort for environment setup.
- Supported urgent system incidents and occasional application releases during evenings and weekends, demonstrating a commitment to maintaining service continuity and meeting strict SLAs.

SKILLS

Platform Administration – IBM WebMethods (Integration Server, Deployer, API Gateway), Windows, Linux (RHEL)

DevOps Tools – Git, Bash, Python, Ansible, Jira, Bitbucket, Datadog, Jenkins, Azure DevOps

Containerization & Orchestration – Docker, Kubernetes

Cloud & IaC – AWS (EC2, S3, Lambda, CloudWatch), Terraform

Integration Technologies – APIs, REST, SOAP, Messaging Concepts, IBM WebMethods

Observability & Automation – Splunk, Dynatrace, Python Scripting, Shell Scripting

PROJECTS

WebMethods Platform Automation Suite (HCL Technologies)

- Developed a suite of **Python scripts** to automate routine WebMethods administration tasks, including user access control updates and log file rotation across cluster nodes, reducing manual time spent by 25%.
- Engineered **Jenkins pipelines** to automate the deployment of WebMethods integration flows and configurations to development and staging environments, ensuring consistent builds and faster feedback loops for developers.
- Created comprehensive **runbooks and documentation** for common operational procedures and troubleshooting steps, enabling the support team to resolve ~15% more P2 incidents without escalation.

CI/CD Pipeline Enhancement for Application Releases (HCL Technologies)

- Refactored existing **Jenkins pipelines** to support automated deployments for both Java Spring Boot applications and .NET services, integrating **Git** branching strategies for better release management.
- Implemented automated environment health checks post-deployment using **Bash scripting** and **AWS CloudWatch** metrics, flagging potential issues within 10 minutes of a release.
- Collaborated with cross-functional teams to define release gates and streamline the UAT coordination process, contributing to a 20% reduction in the average release cycle time.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
