PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Partnered with business stakeholders to gather and analyze functional requirements for a strategic program, translating needs into clear **user stories** with defined business value and acceptance criteria.
- Led team refinement sessions to ensure user stories were sprint-ready, defining **story acceptance tests** in collaboration with the development team, applying **ATDD** principles.
- Managed product backlogs using **JIRA** and **Confluence**, identifying and documenting risks and dependencies associated with planned system enhancements.
- Supported end-to-end test activities to validate functionality, ensuring delivered solutions met requirements and passed both automated and manual testing procedures.
- Developed **Python scripts** for data pipeline automation and scheduled reporting, improving data processing efficiency by an estimated **15%**.
- Contributed to feature development and bug fixes for existing **Java Spring Boot** services, including the design and implementation of new **REST APIs** for system integrations.

SKILLS

Analysis & Requirements – Business Requirements Documents, Process Flows, Use Cases, User Stories, Backlog Management, Risk & Dependency Management, ATDD, UAT

Tools & Technologies – JIRA, Confluence, SQL Developer, Insomnia, Kafka Offset Explorer, Datadog, Python, Java Spring Boot, REST APIs, PostgreSQL, AWS

Agile Methodologies – Scrum, Agile Ceremonies, Sprint Planning, Product Backlog Refinement

Testing & Validation – Manual Testing, Automated Testing, Acceptance Criteria, Data Validation

Data & Scripting – SQL, Python Scripting, Data Pipelines, ETL

Domain Knowledge – Financial Services Industry, Investment Management, Wealth Management, Payments Operations

System Understanding – Application Architecture, Data Models, Code Analysis

PROJECTS

Financial Operations Dashboard Enhancement

- Enhanced a **payments operations dashboard** for enterprise financial clients, improving transaction monitoring and operational alerting for failed messages.
- Collaborated with business analysts and operations teams to gather requirements for new dashboard features, focusing on reconciliation workflows and audit trails.
- Implemented Python scripts to automate data ingestion and reporting for the dashboard, reducing manual effort by approximately **20%**.

ERP System Integration & Automation

- Supported integration efforts between enterprise business systems and an **ERP** module, focusing on data consistency across interconnected platforms.
- Developed **SQL queries** and validation scripts to ensure data integrity during cross-system data flows between PostgreSQL and Oracle databases.
- Automated change management documentation and UAT coordination tasks using **Python scripts**, streamlining the release process for system configuration updates.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
