PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and developed **new user-facing features** for the Laboratory Information System, enhancing functionality and user experience.
- Implemented **data computations** and automated quality control verifications, improving the efficiency of analytical processes.
- Maintained and enhanced **data transfer systems** between instruments, managing significant increases in data throughput across the platform.
- Developed **integration and data import/export systems** to streamline data flow between laboratory instruments and the central LIMS.
- Documented **release deployment and change management** procedures, ensuring clear communication and adherence to internal protocols.
- Troubleshoot and resolved issues in **on-premise and cloud environments**, ensuring system stability and operational continuity for the LIMS.

SKILLS

Development – PHP, Web Applications, Back-end Web Applications, APIs, Reusable Code, Libraries, Cloud Computing Infrastructure

Data Management – Data Computations, Data Throughput, Data Quarantine Systems, Data Import/Export, Database Modification

System Improvement – Continuous Improvement, Enhanced Functionality, LIMS, Quality Management System

Operations – Troubleshooting, On-Premise, Cloud Environments, Release Deployment, Change Management

Analysis – Method Validations, Statistical Analysis, Bias, Precision, Uncertainty of Measurement Controls, MS-Office Suite

PROJECTS

Laboratory Information System Enhancement (HCL Technologies)

- Developed new **user-facing features** for the Laboratory Information System, focusing on improved usability and workflow efficiency.
- Engineered **automated quality control verifications** and data processing routines, reducing manual intervention by approximately **15%**.
- Designed and implemented **database modifications** to support new functionalities and manage growing data volumes within the LIMS.

Instrument Data Integration & Automation (HCL Technologies)

- Built **integration systems** to manage data transfer from various laboratory instruments, ensuring accurate and timely data capture.
- Automated routine data import/export tasks using **Python scripting**, reducing processing time for batch operations by an average of **22%**.
- Created **REST APIs** to facilitate seamless data exchange between the LIMS and external reporting tools, enhancing data accessibility.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
