PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Responded to customer cases within established **Service Level Agreements**, prioritizing based on severity and impact to ensure optimal product performance for enterprise clients.
- Investigated and reproduced complex technical issues by gathering **logs**, configuration details, and system data, reducing average case resolution time by **18%**.
- Researched and documented solutions for reported problems using internal Knowledge Base articles and product documentation, contributing to a **15% increase** in first-contact resolution.
- Acted as a technical advisor within the team, providing assistance and in-depth training on specific **product components** and integration challenges to junior engineers.
- Managed customer escalations, driving internal technical reviews and providing transparent progress updates to customers, ensuring timely and effective resolutions.
- Authored detailed case notes and resolutions in the customer tracking database, ensuring comprehensive documentation for ongoing support and knowledge sharing initiatives.

SKILLS

Support & Troubleshooting – Technical Support, Case Management, Incident Response, Log Analysis, Packet Capture, Wireshark, tcpdump, Reproducing Issues, Knowledge Base Contribution

Operating Systems – Windows Application Support, Linux Command-Line, Service Management, Registry, Event Viewer

Networking – TCP/IP, DNS, Layer 2/3 Troubleshooting, Endpoint-to-Server Connectivity

Cloud & Storage – Cloud Storage Connector Protocols, SharePoint Online, OneDrive, SMB/CIFS, AWS, S3-compatible object storage, Grafana

Containerization & Orchestration – Kubernetes Fundamentals, Pod-based Microservice Deployments, Rancher, K3s

Security Concepts – Information Security, Data Classification, DLP, Data Posture Management, Endpoint Application Stack Diagnostics

Databases & Messaging – Elasticsearch, Kafka, PostgreSQL, SQL

PROJECTS

Enterprise Application Support & Reliability Enhancement (HCL Technologies)

- Enhanced production support for a suite of enterprise applications by implementing proactive monitoring using **Splunk and Dynatrace**, reducing critical incidents by **22%** over six months.
- Automated routine data validation and reporting tasks using **Python scripting**, cutting down manual effort for the operations team by approximately **15 hours per week**.
- Developed and maintained **Java Spring Boot REST APIs** for inter-service communication, ensuring seamless data flow between interconnected enterprise systems.

Data Analytics Dashboard for Operational Insights (MSc Project)

- Designed and built interactive **Power BI dashboards** to visualize key operational metrics for a simulated financial services client, presenting insights on transaction volumes and error rates.
- Performed data extraction, transformation, and loading (ETL) using **Power Query** and applied **DAX measures** for complex data modelling to support analytical requirements.
- Analyzed data patterns using **R** and statistical methods to identify potential areas for process improvement, presenting findings to academic stakeholders.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
