PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed and updated **Master Data** within the Finance **ERP system** (Business Central) for a multinational ride-sharing client, ensuring data integrity across financial modules.
- Developed and supported **accounting solutions** by translating business requirements into functional configurations within **Business Central**, streamlining month-end reporting processes.
- Configured and maintained **CSV Ports** (interfaces) for data exchange between the finance ERP and ancillary systems, supporting a team of 8 accountants.
- Contributed to **roll-out projects** for new subsidiaries by assisting with system configuration, data migration, and user acceptance testing (UAT) in **Business Central**.
- Documented and improved **accounting processes** and system landscapes, including interfaces and ancillary applications, for a team of 12 finance operations staff.
- Supported audit and monthly group reporting from a systems perspective, providing data extracts and reconciliations for **finance operations** and the dunning team.

SKILLS

ERP Systems – Microsoft Dynamics 365 Business Central, ERP system configuration, Master Data Management

Finance & Accounting – Accounting processes, Financial reporting, Audit support, Dunning, CSV Ports, Reconciliation

IT Project Management – Roll-out projects, System documentation, Process improvement, Stakeholder management, Stand-up meetings

Development & Debugging – Python scripting, SQL (PostgreSQL, MySQL, Oracle), REST APIs, Java Spring Boot

Cloud & Infrastructure – AWS (EC2, S3, Lambda), Docker, Linux

Agile Methodologies – Scrum, Jira, Confluence, Code reviews

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, Data modelling

PROJECTS

Business Central Configuration for New Subsidiaries

- Configured core financial modules, chart of accounts, and tax structures in **Microsoft Dynamics 365 Business Central** for three new European subsidiaries.
- Developed Python scripts to automate the migration of legacy financial data, reducing manual data entry by approximately 65% for each rollout.
- Collaborated with local finance teams to conduct user acceptance testing (UAT) and gather feedback, leading to a 20% reduction in post-go-live support tickets.

Automated Financial Reporting Dashboard

- Designed and implemented a **Power BI dashboard** to visualize key financial metrics and transaction flows for a team of 8 business analysts, consolidating data from multiple sources.
- Wrote complex **DAX measures** and Power Query transformations to support real-time reporting on aged payables and receivables, improving report generation time by 40%.
- Created comprehensive documentation for the dashboard's data model and ETL processes, enabling self-service analytics for stakeholders within the finance department.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
