PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed **P1/P2 incident response** for enterprise applications, diagnosing root causes through **log analysis** using **Splunk** and **Dynatrace** to meet strict SLA targets.
- Developed **Python scripts** to automate data extraction and transformation for scheduled reporting, improving data availability for operational teams by approximately **15%**.
- Implemented new features and resolved defects in **Java Spring Boot** REST APIs, supporting cross-service communication for internal platforms.
- Supported and integrated with enterprise business systems, including **ERP** modules, coordinating **change-control management** for system updates across interconnected platforms.
- Analyzed and triaged potential **product bug alerts** within defined SLA windows, performing initial investigations and validating issues for escalation.
- Provided **concise, actionable summaries** of technical investigations to both engineering and non-technical stakeholders, facilitating rapid decision-making.

SKILLS

Developer Operations – Trust and Safety, Product Reliability, Bug Triage, Incident Management, Log Analysis, Root Cause Analysis, Crash Rate Analysis, Spike Validation, Resolution Tracking.

Programming & Scripting – Python, Java, SQL, Spring Boot, Shell Scripting.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux.

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, R, RStudio.

Databases – PostgreSQL, MySQL, Oracle.

DevOps & Tools – Jenkins, Git, Jira, Confluence, Splunk, Dynatrace.

Business Systems – ERP Integration Support, Change Management, Payments Operations Dashboard, Transaction Monitoring, Reconciliation Workflows.

PROJECTS

Production Support Dashboard Enhancement (HCL Technologies)

- Enhanced an existing **payments operations dashboard** by integrating real-time alerting for failed transaction messages, reducing manual oversight by approximately **20%** for the operations team.
- Developed **Python automation scripts** to process daily reconciliation reports, reducing manual data compilation time from 3 hours to under 45 minutes.
- Collaborated with business analysts to define new monitoring metrics and implement them within the dashboard using **SQL** queries against PostgreSQL.

Enterprise System Integration Automation (HCL Technologies)

- Automated data flow validation between a core **ERP** system and a downstream financial reporting platform using **Java Spring Boot** microservices and scheduled **Python** jobs.
- Designed and implemented REST APIs for cross-system data exchange, improving data synchronization reliability for critical business operations.
- Contributed to the CI/CD pipeline using **Jenkins** and **Git** for automated testing and deployment of integration modules.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
