PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Investigated and resolved approximately **45 customer-reported issues** per week, including account support requests and potential bug reports, ensuring adherence to defined policies and guidelines.
- Triaged and troubleshoot third-party application issues for customers via **email and chat support**, escalating complex problems to development teams and documenting resolution steps.
- Gathered and analyzed **user feedback data** to identify workflow inefficiencies, proposing and implementing solutions that improved the overall user experience on the platform.
- Developed **Python scripts** to automate data extraction and reporting tasks, reducing manual effort for the operations team by an estimated **15%**.
- Contributed to the enhancement of an internal **payments operations dashboard** by implementing new monitoring alerts for transaction flows, improving detection of failed messages.
- Collaborated with cross-functional teams to document and update **client policies and guidelines**, ensuring accurate communication to the user community.

SKILLS

Development Operations – Unity C#, Unreal Engine C++, Android, IOS, Web, Augmented Reality, Virtual Reality, Consoles

Version Control & Tools – Github, Jira, Confluence

Troubleshooting & Analysis – Command Line Tools, Log Review, Root Cause Analysis, Test Case Development

Programming & Scripting – Python, Java, SQL

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux

Data & Analytics – Power BI, Tableau, pandas, NumPy, scikit-learn

Domain Knowledge – Trust and Safety, Data Privacy, Data Protection, Gaming Ecosystem, Game Design

PROJECTS

Customer Issue Triage & Resolution System (HCL Technologies)

- Developed a Python-based system to categorize and prioritize incoming customer support tickets, reducing average triage time by **20%**.
- Integrated with internal logging tools to enable faster root cause analysis for reported bugs, decreasing ticket escalation duration by an average of **1.5 hours**.
- Created comprehensive documentation and runbooks for common issue resolution workflows, improving consistency across the support team.

Automated Reporting Pipeline for Financial Operations (HCL Technologies)

- Engineered a Python ETL pipeline to extract, transform, and load transaction data from PostgreSQL into a reporting database, processing approximately **50,000 records daily**.
- Built automated SQL queries to generate daily reconciliation reports, identifying discrepancies and reducing manual data validation efforts by **30%**.
- Designed and implemented a monitoring system using Splunk to track pipeline health and alert on job failures, ensuring data integrity for downstream processes.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
