PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Guided enterprise customers through assessments of existing legacy application environments, providing strategic recommendations for infrastructure and application modernization roadmaps on Google Cloud.
- Developed and delivered technical presentations and product/solution briefings to customer engineering teams, advocating for Google Cloud platform adoption and integration strategies.
- Architected and prototyped integrations using Google Cloud products, demonstrating solutions and addressing technical objections to resolve customer blockers.
- Collaborated with product management to prioritize solutions that directly impacted customer adoption and feature development for Google Cloud services.
- Designed and implemented REST APIs using **Java Spring Boot** for cross-service data exchange, incorporating request validation and circuit-breaker patterns to ensure reliability.
- Automated data ingestion and ETL processes using **Python scripting**, supporting scheduled reporting and data validation tasks for enterprise systems.

SKILLS

Cloud Infrastructure – Google Cloud, AWS, EC2, S3, Lambda, CloudWatch, Containerization, Docker

Core Development – Java, Spring Boot, Python, REST APIs, .NET

Databases & Big Data – SQL, PostgreSQL, MySQL, Oracle, NoSQL, Big Data Technologies

Infrastructure & Operations – On-premise infrastructure, Virtualization, Linux, Shell Scripting, CI/CD, Jenkins, Git

Analytics & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing, R, RStudio, pandas, NumPy, scikit-learn

Customer Engagement – Technical Presentations, Solution Briefings, Proof-of-Concept, Requirements Gathering, Customer Onboarding, Technical Advocacy

PROJECTS

Cloud Infrastructure Modernization Strategy

- Developed a comprehensive strategy for modernizing legacy on-premise infrastructure to a cloud-native architecture, focusing on scalability and reliability for enterprise clients.
- Designed migration plans for critical applications, recommending specific Google Cloud services like Compute Engine, Kubernetes Engine, and Cloud SQL to meet performance and cost objectives.
- Created detailed technical documentation and presentations outlining the proposed architecture, integration points, and phased rollout plan for stakeholder review.

Customer-Facing Technical Solution Prototyping

- Built and demonstrated proof-of-concept integrations for a key enterprise customer, showcasing how Google Cloud services could address their specific business challenges.
- Developed sample applications using **Python** and **Flask** on **AWS Lambda** to prototype real-time data processing pipelines, simulating customer data flows.
- Provided post-sales technical support and guidance to the customer's engineering team, assisting with integration challenges and clarifying platform capabilities.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
