PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and implemented **Java Spring Boot** microservices for an enterprise-scale platform, handling approximately **3,200 requests per second** during peak loads.
- Automated data ingestion and ETL processes using **Python scripting** for scheduled reporting and data validation, reducing manual data preparation time by **35%**.
- Managed production incidents for critical enterprise applications, performing root cause analysis and implementing fixes within strict SLA parameters using **Splunk** and **Dynatrace**.
- Designed and deployed **REST APIs** to facilitate cross-system integrations between ERP modules and operational platforms, enhancing data flow efficiency.
- Contributed to CI/CD pipeline improvements using **Jenkins** and **Git**, enabling more frequent and reliable deployments of new features.
- Executed ad-hoc **SQL queries** and performed data validation across multiple database systems including **PostgreSQL** and **Oracle** for operational reporting and system audits.

SKILLS

Programming Languages – Java, Python, C++, Go, SQL, R

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch), Google Cloud Platform

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn, NestJS

Databases – PostgreSQL, MySQL, Oracle

Tools & Technologies – Docker, Kubernetes, Jenkins, Git, Jira, Confluence, Splunk, Dynatrace

Data Visualization – Power BI, Tableau, DAX, Power Query

Methodologies – Agile, Scrum, Data Structures, Algorithms

PROJECTS

Scalable Fleet Management System (HCL Technologies)

- Engineered a distributed system using **Java Spring Boot** and **PostgreSQL** to manage and monitor a fleet of enterprise devices, supporting over **10,000 nodes**.
- Developed automation scripts in **Python** to streamline device provisioning and configuration updates, reducing deployment times by **40%**.
- Implemented health check endpoints and logging mechanisms using **AWS CloudWatch** for enhanced system observability and proactive issue detection.

Data Analytics Dashboard for Operations (MSc Project)

- Designed and built interactive **Power BI dashboards** to visualize key operational metrics for a simulated enterprise environment, consolidating data from multiple sources via **Power Query**.
- Developed complex **DAX measures** for trend analysis and performance forecasting, presenting actionable insights to business stakeholders.
- Performed data modeling and ETL processes using **SQL** and **Python** to prepare and integrate disparate datasets for analysis.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
