PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Troubleshot production **Google Kubernetes Engine (GKE)** deployments for enterprise clients, resolving complex issues impacting availability and scale, and reducing incident escalations by **~15%**.
- Developed and maintained **Python** scripts for automating data ingestion and ETL processes, handling approximately **3,000** records per hour for critical reporting pipelines.
- Acted as a technical subject matter expert for internal engineering and sales teams, consulting on deployment obstacles and advocating for product improvements based on customer feedback.
- Managed change control processes for system configurations and coordinated User Acceptance Testing (UAT) for enterprise business systems integrations, ensuring smooth post-go-live transitions.
- Designed and implemented **REST APIs** using **Java Spring Boot** for cross-service data exchange, incorporating request validation and circuit-breaker patterns to enhance system resilience.
- Provided 24x7 production support for enterprise applications, analyzing logs via **Splunk** and diagnosing P1/P2 incidents within strict SLA parameters.

SKILLS

Cloud Computing – Google Cloud Platform (GCP), Kubernetes, Google Kubernetes Engine (GKE), Anthos, AWS (EC2, S3, Lambda, CloudWatch)

Core Technologies – Python, Java, Spring Boot, REST APIs, Docker, Linux, Git, Jenkins

Databases – PostgreSQL, MySQL, Oracle, SQL

Networking – TCP/IP, Routing, Load Balancing, HTTP, HTML, DNS

Systems Administration – Systems Administration, Developer Operations (DevOps), Scripting, Shell Scripting

Observability & Support – Splunk, Dynatrace, CloudWatch, Incident Response, SLA Management

Analytics & BI – Power BI, Tableau, DAX, Power Query, Data Modelling

PROJECTS

GKE Production Issue Triage and Resolution Framework

- Developed a diagnostic framework for **Google Kubernetes Engine (GKE)** deployments, reducing average time-to-root-cause analysis for customer-reported issues by **~30%**.
- Built **Python** tooling to automate the collection of cluster metrics and logs from large-scale, multi-node environments, improving data gathering efficiency for engineers.
- Created comprehensive documentation and runbooks for common GKE operational issues, enabling faster resolution by L1/L2 support teams and reducing escalations by approximately **18%**.

Enterprise Systems Integration & Automation

- Engineered **Java Spring Boot** microservices to facilitate data synchronization between an ERP system and a financial operations dashboard, processing over **5,000** transactions daily.
- Automated data validation and reconciliation workflows using **Python** scripts and **SQL** queries against PostgreSQL and Oracle databases, improving data integrity across interconnected systems.
- Collaborated with business analysts to gather requirements and support UAT for system configuration changes, ensuring successful integration and adoption within the enterprise environment.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
