PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed and administered the **technical specification database** for an aircraft leasing client, ensuring data integrity for approximately 1,400 leases and inputting monthly utilization figures.
- Updated and controlled fleet **technical records data** and documentation, collaborating with cross-functional operations teams to maintain accurate asset information.
- Assisted with the **asset review system control** and assessments, meticulously analyzing and updating shop visit events and component status changes.
- Developed **Python scripts** to automate data validation and scheduled reporting for aircraft specifications, improving data processing efficiency by an estimated **15%**.
- Contributed to the development of **Java Spring Boot** REST APIs for cross-system integrations, supporting enterprise business systems and operational platforms.
- Performed production support for enterprise applications using **Splunk** and **Dynatrace**, responding to P1/P2 incidents and managing SLAs within a financial-services operations dashboard environment.

SKILLS

Aviation Advisory – Fleet technical records data management, Asset review system control, Technical specification database administration, Aircraft maintenance reserve claims, Shop visit events analysis, Component status changes

Data Management & Analysis – Data migration management, Technical aircraft expertise, Deal appraisals, Data visualization, Reporting

Technical Skills – Python, Java, Spring Boot, SQL, REST APIs, AWS, Docker, Linux, Git, Jenkins, Jira, Confluence, Splunk, Dynatrace, PostgreSQL, MySQL, Oracle

Business Intelligence – Power BI, Tableau, DAX, Power Query, Data Modelling, Business stakeholders

Core Competencies – Detail-Orientated, Organized, Meet deadlines, Prioritize, Diligent, Thorough, Numerate, Attention to detail

Software Proficiency – Microsoft Excel, Microsoft Word, Microsoft Outlook

PROJECTS

Aircraft Lease Management Data System (HCL Technologies)

- Engineered a **technical specification database** using **PostgreSQL** to manage data for over 1,200 aircraft leases, including detailed equipment and component specifications.
- Developed **Python automation scripts** to parse and ingest monthly utilization reports and component status changes, reducing manual data entry time by approximately **20%**.
- Created interactive **Power BI dashboards** to visualize fleet technical data and highlight key maintenance events for the financial-services client's operations team.

Enterprise Systems Integration & Automation (HCL Technologies)

- Built and maintained **Java Spring Boot** microservices to integrate with existing ERP modules, facilitating data flow across interconnected enterprise business systems.
- Automated routine data validation tasks for cross-system integrations using **SQL scripts** across PostgreSQL and Oracle databases, improving data accuracy for reconciliation workflows.
- Managed change control processes for system configuration updates and supported UAT for new feature deployments across multiple interconnected platforms.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
