PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Served as technical lead for **Cyber Security infrastructure initiatives** in a live 24/7 production environment, ensuring operational continuity and security posture.
- Developed and implemented **industry best-practice infrastructure designs** focused on scalability, resilience, and security for enterprise systems.
- Managed comprehensive **vulnerability assessment and security patch management programmes** across Windows Server and client OS environments.
- Designed and executed **high-availability and disaster recovery strategies**, including regular testing to validate failover mechanisms.
- Produced detailed **documentation for internal and external audit purposes**, adhering to strict process control methodologies like ITIL.
- Resolved escalated **technical issues** from first and second line support, providing expert-level troubleshooting for complex system problems.

SKILLS

Operating Systems – Windows Server 2019/2022/2025, Windows 11 client OS, Linux (RedHat/OEL)

Directory Services & Networking – Active Directory, Group Policy, Network Protocols

Infrastructure & Virtualization – VMware, Storage Technology, EC2, S3, Lambda

Automation & Scripting – Python, Ansible, REST APIs, Shell Scripting

Security & Operations – Cyber Security Infrastructure, Vulnerability Assessment, Patch Management, ITIL, Splunk, Dynatrace

Databases & Messaging – PostgreSQL, MySQL, Oracle

Cloud & CI/CD – AWS, Jenkins, Git

PROJECTS

Enterprise Security Patching Automation (HCL Technologies)

- Automated the deployment of critical security patches across a fleet of **500+ Windows Servers** using Python scripts integrated with Ansible, reducing manual patching time by **45%**.
- Developed a **REST API** to query patch status and trigger deployments on demand, facilitating faster response to critical zero-day vulnerabilities.
- Implemented centralized logging and reporting for patch compliance using **Splunk**, providing real-time visibility to operations and security teams.

High-Availability Financial Operations Dashboard (HCL Technologies)

- Engineered a **Java Spring Boot** backend service for a payments operations dashboard, ensuring resilience and high availability for critical transaction monitoring functions.
- Integrated with **PostgreSQL** and **Oracle** databases to provide real-time data streams for reconciliation workflows and operational alerting.
- Developed **Power BI dashboards** to visualize key performance indicators and system health metrics, supporting **business analysts** and operations teams.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
