PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Installed and terminated **data, network, and low-voltage cabling** for multiple enterprise client sites, ensuring neatness and adherence to technical drawings.
- Configured and deployed **IP cameras, sensors, and control panels** as part of integrated security and automation systems across commercial properties.
- Executed basic **fault finding and testing** on installed systems, escalating complex issues to senior engineers for resolution and maintaining site logs.
- Managed **rack room and headend organisation**, ensuring tidy cable management and clear labelling for efficient future maintenance and upgrades.
- Collaborated with **Project Managers and Senior Engineers** to understand project scopes, daily tasks, and installation requirements, contributing to a team-focused approach.
- Assisted with **second-fix terminations and final fit-out stages** of custom technology installations, focusing on precision and professional finish.

SKILLS

Installation & Cabling – Structured cabling, Data cabling, Network cabling, Low-voltage cabling, Cable termination, Containment systems, Power tools, Hand tools

Security & AV Systems – CCTV installation, Alarm systems, Access control, Audio Visual installation, Smart Automation, Video Conferencing

Technical Skills – Fault finding, System testing, Reading technical drawings, Site installation, Rack mounting, Linux

Programming & Scripting – Python, Java, SQL, Spring Boot, REST APIs

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Git, Jenkins

Data & Analytics – Power BI, Tableau, DAX, Power Query, R, pandas, NumPy, scikit-learn

Databases – PostgreSQL, MySQL, Oracle

PROJECTS

Smart Home Automation System Integration (HCL Technologies)

- Integrated various smart home devices including **lighting controls, climate systems, and entertainment peripherals** using custom Python scripts and REST APIs.
- Developed a **centralized control interface** concept using Flask for managing device states and user preferences, improving user experience for a hypothetical high-end residential client.
- Configured network infrastructure, including **switch management and Wi-Fi optimisation**, to ensure stable connectivity for all integrated smart devices.

Enterprise System Monitoring Dashboard (HCL Technologies)

- Developed and maintained **operational dashboards in Power BI** to visualize system health and performance metrics for enterprise applications.
- Created **ETL processes using Power Query and Python** to ingest data from various sources, including application logs and database records, for analysis.
- Queried and validated data from **PostgreSQL and Oracle databases** to support troubleshooting and ensure data integrity for the monitoring platform.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
