PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed and supported production enterprise applications using **Splunk** and **Dynatrace**, responding to P1/P2 incidents and ensuring SLA adherence for core business systems.
- Developed **Python** scripts to automate ETL processes and generate scheduled operational reports, improving data processing efficiency by approximately **15%**.
- Engineered REST APIs using **Java Spring Boot** for cross-system integrations, facilitating data exchange between disparate enterprise platforms.
- Coordinated change management processes for system configurations, including UAT support and post-go-live triage across interconnected ERP and operational systems.
- Authored comprehensive documentation and runbooks for production systems, reducing incident resolution time for common issues by an average of **20 minutes**.
- Collaborated with business analysts and operations teams to gather requirements, support UAT, and triage issues for a financial-services dashboard, enhancing operational visibility.

SKILLS

Core Technologies – Java, Spring Boot, Python, SQL, REST APIs, Linux, Git, Jenkins

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, CI/CD

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, R, RStudio

Databases – PostgreSQL, MySQL, Oracle

Monitoring & Support – Splunk, Dynatrace, Jira, Confluence, Incident Response

Domain Knowledge – Health Information Systems, Health Standards, Project Management, Operational Support, Data Management, Stakeholder Engagement

PROJECTS

Health Information Standards Dashboard

- Developed an interactive **Power BI** dashboard to visualize key performance indicators for health service quality metrics, consolidating data from multiple sources.
- Designed and implemented data models within **Power BI** to support complex analytical queries and reporting for health information standards.
- Collaborated with internal stakeholders to define reporting requirements and presented dashboard insights, facilitating informed decision-making on service improvements.

Automated Reporting System for Enterprise Operations

- Created automated **Python** scripts to extract, transform, and load data from various operational databases (**PostgreSQL**, **MySQL**) for daily reporting.
- Built scheduled reporting workflows that delivered consolidated operational summaries to management, reducing manual reporting effort by approximately **10 hours** per week.
- Integrated the reporting system with existing enterprise infrastructure via **REST APIs**, ensuring seamless data flow and system compatibility.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
