PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed production support and incident response for enterprise applications, resolving P1/P2 incidents within SLA targets using **Splunk** and **Dynatrace**.
- Developed **Python** scripts to automate data extraction and transformation processes, reducing manual effort for scheduled reporting by approximately **40%**.
- Engineered **Java Spring Boot** REST APIs for new feature development and system integrations, adhering to established coding standards and code review processes.
- Performed ad-hoc data analysis and validation using **SQL** across **PostgreSQL** and **MySQL** databases for business requirements and defect investigation.
- Contributed to CI/CD pipeline improvements using **Jenkins** and **Git**, enhancing code deployment frequency and reliability for the development team.
- Collaborated with cross-functional teams and business analysts in an Agile/Scrum environment, participating in sprint planning, stand-ups, and UAT coordination.

SKILLS

Application Support & Operations – Production Support, Incident Response, SLA Management, Monitoring, Splunk, Dynatrace, CloudWatch, Log Analysis, Runbooks

Backend Development – Java, Spring Boot, REST APIs, Microservices, Python, Flask, FastAPI, Docker, Containerization

Data & Analytics – SQL, PostgreSQL, MySQL, Oracle, Data Warehousing, ETL, Power BI, Tableau, DAX, Power Query, R, RStudio, pandas, NumPy, scikit-learn

DevOps & CI/CD – Jenkins, Git, Agile, Scrum, Jira, Confluence, Linux Shell Scripting

Enterprise Systems – ERP Integration Support, Change Management, Cross-System Integrations

PROJECTS

Automated Data Pipeline for Operational Reporting

- Designed and implemented a Python-based ETL pipeline to consolidate data from multiple disparate sources into a central repository for business intelligence reporting.
- Developed automated data validation checks within the pipeline to ensure data integrity, reducing data-related discrepancies in end reports by **~30%**.
- Scheduled pipeline execution using cron jobs on Linux and monitored performance via custom logging, ensuring timely delivery of daily operational reports.

Enhancements to Financial Transaction Monitoring Dashboard

- Developed new Java Spring Boot microservices to ingest and process real-time transaction data for a financial services client's operational dashboard.
- Integrated new data visualization components and alerting mechanisms into the existing dashboard, improving visibility into transaction flow exceptions for an operations team of 8.
- Collaborated with business analysts to gather requirements for enhanced transaction reconciliation workflows and provided UAT support for new features.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
