PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Administered and maintained the **Microsoft 365** environment, including user management and system configuration for over 200 users.
- Developed automated workflows using **Power Automate** to streamline inter-departmental processes, reducing manual data entry by an estimated 40%.
- Supported the design, configuration, and rollout of **SharePoint Online** sites for departmental collaboration, managing information architecture and permissions.
- Provided user support and training on **Power Platform** tools to internal customers, enhancing adoption and effective usage.
- Performed regular audits of **SharePoint Online** permissions across 15+ sites, ensuring adherence to access governance policies and minimizing risk.
- Collaborated with business stakeholders to gather requirements for new **Microsoft Dynamics 365** customisations, translating needs into actionable technical solutions.

SKILLS

Microsoft 365 Administration – SharePoint Online, Teams, OneDrive, Exchange Online, Azure AD

Microsoft Dynamics 365 – CRM Administration, Entities (Dataverse tables), Security Roles, Forms, Views, Workflows

Power Platform – Power Automate, Power Apps, Dataverse, Low-code/No-code Development

Cloud Engineering – Azure, Microsoft Purview, Intune

System Administration – User Management, Access Governance, Permissions Auditing, System Optimisation

Development & Integration – REST APIs, System Integration (Advantageous)

PROJECTS

SharePoint Online Collaboration Hub Implementation

- Designed and configured a new **SharePoint Online** site collection for the IT department, establishing a central hub for documentation, project tracking, and team communication.
- Managed site permissions and information architecture, implementing a structured navigation and content organisation system that improved findability for over 50 users.
- Developed custom views and web parts within SharePoint to display key project statuses and team updates, enhancing visibility for departmental leadership.

Automated Expense Reporting Workflow

- Engineered an automated expense reporting workflow using **Power Automate**, integrating with a SharePoint list for submission and a simulated approval process.
- Developed a **Power App** as a user-friendly interface for expense submission, capturing details such as vendor, amount, and receipt attachments.
- Configured email notifications and approval steps within Power Automate, reducing the manual follow-up time for expense report processing by approximately 30%.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021
