PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Monitored and maintained the functionality of production applications, batch processes, and infrastructure components, ensuring high availability for enterprise customers.
- Executed production changes and implemented necessary system updates to support evolving customer needs and operational requirements.
- Developed Python automation scripts to streamline manual processes, reducing operational effort by approximately 30% across routine tasks.
- Provided effective triage and resolution for operational support requests, collaborating with cross-functional teams to address technical escalations.
- Documented and refined Standard Operating Procedures (SOPs) and system requirements to ensure accuracy and adherence to operational standards.
- Analyzed key performance indicators (KPIs) and cloud resource utilization, generating regular performance reports to recommend enhancements.

SKILLS

Cloud Operations – Monitoring, Production Stability, Incident Management, Performance Reporting, AWS, CloudWatch, EC2, S3, Lambda

Automation & Scripting – Python, Shell Scripting, Jenkins, CI/CD

Databases & Data Management – SQL, PostgreSQL, MySQL, Oracle, Data Warehousing, ETL

Programming & Development – Java, Spring Boot, REST APIs, Docker

System Administration & Support – Linux, Splunk, Dynatrace, Jira, Confluence

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, R / RStudio

Enterprise Systems – ERP Integration Support, Change Management

PROJECTS

Production Monitoring & Automation Suite (HCL Technologies)

- Developed a suite of Python scripts to automate log analysis and health checks for Java Spring Boot applications, reducing manual incident triage time by an average of 40%.
- Implemented automated alerting mechanisms using AWS CloudWatch and Splunk to proactively identify performance degradation and potential system failures.
- Created comprehensive runbooks and documentation for common production issues, enabling faster resolution by the operations team.

Operational Dashboard Enhancement (HCL Technologies)

- Designed and implemented interactive dashboards using Power BI to visualize key operational metrics, including application uptime, transaction volumes, and error rates for a financial services client.
- Developed complex DAX measures and Power Query transformations to aggregate data from multiple PostgreSQL and Oracle databases.
- Collaborated with business analysts to gather requirements and iterate on dashboard designs, improving stakeholder visibility into system performance.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
