PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and implemented **secure Azure and Microsoft 365 solutions** for enterprise clients, adhering to security-by-design principles and enabling safe adoption of AI capabilities.
- Supported sales engagements by developing **solution designs**, articulating benefits, and detailing security considerations for prospective clients across cloud infrastructure and productivity services.
- Delivered **Microsoft 365 migrations and tenant posture improvements** for multiple organizations, focusing on enhancing security controls and governance frameworks.
- Conducted **Copilot and AI readiness assessments**, including thorough data exposure and access risk reviews, to ensure clients could safely integrate new AI tools.
- Implemented **Microsoft Purview features**, including Information Protection and DLP policies, to safeguard sensitive data and meet regulatory compliance obligations.
- Managed and deployed **Entra ID Conditional Access policies** and **Microsoft Defender** configurations to strengthen the security posture of client Microsoft 365 tenants.

SKILLS

Cloud Infrastructure – Microsoft Azure, Entra ID, Conditional Access, Microsoft Defender, Microsoft Purview, Information Protection, DLP, Data Governance, Cisco Umbrella

Modern Workplace – Microsoft 365, Copilot, AI Readiness, Server Technologies (AD, Exchange, RDS, SQL)

Security & Governance – Security-by-Design, Risk Assessment, Access Controls, Information Leakage Controls, Tenant Posture Improvement

Networking – Solid Networking Knowledge, DNS-Layer Security

Virtualization – Hyper-V, VMware

Development & Automation – Java Spring Boot, Python Scripting, REST APIs, SQL (PostgreSQL, MySQL, Oracle)

Cloud Platforms & Tools – AWS (EC2, S3, Lambda, CloudWatch), Docker, Git, Jenkins, Jira, Confluence, Splunk, Dynatrace

PROJECTS

Secure Cloud Productivity Platform Implementation

- Designed and rolled out a secure **Microsoft 365 tenant configuration** for a financial services client, integrating **Entra ID, Conditional Access**, and **Microsoft Defender** to meet strict compliance requirements.
- Implemented **Microsoft Purview DLP policies** and data classification to protect sensitive client data, successfully reducing accidental data exposure incidents by approximately 28% over three months.
- Developed **custom PowerShell scripts** to automate the deployment of security configurations and user onboarding processes across multiple client environments.

AI Readiness and Data Governance for Enterprise Clients

- Assessed the **AI readiness** of an enterprise client's data landscape, identifying potential risks related to data exposure and access controls for future Copilot integration.
- Configured **Microsoft Purview Information Protection** labels and policies to govern the handling of sensitive documents, enhancing data governance and compliance workflows.
- Provided technical guidance to client stakeholders on implementing robust security measures, ensuring a safe pathway for their adoption of advanced AI capabilities.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
