PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed incident response and SLA adherence for enterprise applications, analyzing logs via **Splunk** and **Dynatrace** to resolve P1/P2 issues within target windows.
- Developed **Python** scripts to automate data extraction and transformation tasks for scheduled financial reports, reducing manual effort by an estimated **15 hours** per month.
- Designed and implemented REST APIs using **Java Spring Boot** for internal service integrations, facilitating data exchange between core business systems.
- Supported cross-system integrations by performing **SQL** queries and data validation across **PostgreSQL** and **Oracle** databases for enterprise ERP modules.
- Configured and maintained **Jenkins** pipelines for CI/CD, managing Git branching strategies and conducting code reviews to ensure code quality.
- Provided production support for a financial-services operations dashboard, monitoring transaction flows and triaging alerts for failed payment messages.

SKILLS

Languages – Java, Python, SQL, R

Frameworks/Libraries – Spring Boot, pandas, NumPy, scikit-learn, Flask, FastAPI

Databases – PostgreSQL, MySQL, Oracle

Cloud/Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux

DevOps/CI/CD – Jenkins, Git, Jira, Confluence

BI/Analytics – Power BI, Tableau, DAX, Power Query

Monitoring/Observability – Splunk, Dynatrace

PROJECTS

Automated Transaction Reconciliation Workflow (HCL Technologies)

- Developed a **Python**-based ETL pipeline to ingest and reconcile high-volume transaction data from multiple sources for a financial services client.
- Implemented automated data validation checks using **SQL** queries against **PostgreSQL** to identify discrepancies, reducing manual reconciliation time by approximately **20%**.
- Created operational reports and dashboards using **Power BI** to provide visibility into reconciliation status and highlight exceptions for the business analysis team.

Financial Operations Monitoring Dashboard (HCL Technologies)

- Engineered backend services in **Java Spring Boot** to process and aggregate operational metrics from a distributed payments system.
- Built real-time alerting mechanisms triggered by anomalies in transaction processing, integrating with **AWS CloudWatch** for monitoring and incident notification.
- Designed and implemented RESTful APIs for the dashboard to consume data from various microservices, ensuring efficient data retrieval for end-users.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
