PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and customized enterprise-grade B2B CRM solutions on the **Creatio platform**, delivering end-to-end features from backend logic to UI enhancements.
- Implemented backend business logic using **C#** and object-oriented principles, integrating with **Creatio platform** capabilities and adhering to SOLID design patterns.
- Built responsive frontend features using **TypeScript** and **Angular (v18)**, focusing on user-friendly interfaces and seamless integration with backend services.
- Configured and extended **Creatio objects** and business processes to meet evolving business requirements, ensuring system consistency across modules.
- Designed and implemented integrations with external systems via **REST and SOAP APIs**, managing data mapping and robust error handling for complex workflows.
- Collaborated with business analysts to translate functional requirements into scalable technical solutions, participating in **Agile ceremonies** and sprint planning.

SKILLS

Backend Development – C#, Creatio Platform, Object-Oriented Programming, SOLID Principles, Layered Architecture, Refactoring

Frontend Development – TypeScript, Angular (v18), Freedom UI Customization, Client-Server Interactions

API Integrations – REST APIs, SOAP APIs, API Design, Data Mapping, Error Handling

Database Management – MS SQL, PostgreSQL, Relational Databases, Data Integrity

Development Methodologies – Agile, Scrum, Sprint Planning, Backlog Refinement, CI/CD Pipelines

Platform Specific – Creatio Objects, Creatio Processes, Custom Creatio Packages

PROJECTS

Enterprise CRM Customization Project (HCL Technologies)

- Extended a B2B CRM platform's core functionality by developing custom **Creatio packages**, integrating business logic via **C#** and configuring UI components.
- Built REST APIs to facilitate data exchange between the CRM and an external inventory management system, ensuring consistent data across both platforms.
- Collaborated with stakeholders to gather requirements for new features, ensuring technical solutions aligned with business objectives and delivered an improved user experience.

Full-Stack CRM Enhancement (HCL Technologies)

- Developed a new customer onboarding module within a Creatio environment, implementing backend processes in **C#** and frontend components using **TypeScript** and **Angular**.
- Configured complex business processes within Creatio to automate lead qualification and customer segmentation, reducing manual processing time by an estimated **15%**.
- Designed and implemented error handling strategies for integrations with third-party marketing automation tools, ensuring data accuracy and system stability.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
