PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed financial performance for assigned projects by ensuring accurate cost tracking and timely reporting, aligning with company standards and client requirements.
- Prepared bi-weekly project cost reports, including variance analyses and financial summaries, to support project managers in understanding financial results.
- Maintained accurate job costing for labor, materials, equipment, and subcontractor expenses, ensuring data integrity for financial controls.
- Processed progress billings and milestone invoices, reviewing contracts to ensure billing aligned with terms and deliverables, and tracking accounts receivable.
- Assisted in developing project budgets and financial forecasts, updating projections based on actual performance and identifying cost overruns or savings opportunities.
- Supported internal and external audits by maintaining accurate project financial records and documentation, ensuring compliance with audit requirements and client reporting standards.

SKILLS

Project Finance – Project Cost Tracking, Budgeting, Forecasting, Variance Analysis, Financial Controls, Revenue Recognition, Job Costing, Accounts Receivable, Billing, Reconciliation

Business Systems – Accounting Software (Sage300, SAP, or similar), ERP Systems, Change Management, UAT Coordination

Data Analysis & Reporting – Excel (Pivot Tables, Lookups), Bi-Weekly Reporting, Financial Summaries, Backlog Reporting, Secured Weekly Reporting

Core Finance – Accounting Principles, Cost Control, Client Reporting Standards, Audit Requirements

Tools & Methodologies – Agile/Scrum, Jira, Confluence, Git, Jenkins

PROJECTS

Financial Operations Dashboard Enhancement (HCL Technologies)

- Enhanced a financial-services operations dashboard by developing new modules for transaction monitoring and reconciliation workflows, improving operational visibility.
- Automated the generation of daily operational reports using Python scripting, reducing manual effort by approximately 15 hours per week for the support team.
- Implemented robust error-handling and alerting mechanisms for failed payment messages, contributing to a 30% reduction in critical incident response times.

ERP System Integration Support (HCL Technologies)

- Supported integration efforts between enterprise business systems and a client's ERP modules, ensuring seamless data flow across platforms.
- Managed change control processes for system configuration updates, coordinating User Acceptance Testing (UAT) and post-go-live support for interconnected systems.
- Developed REST APIs and database-level data flows between PostgreSQL and Oracle databases to facilitate cross-system data exchange for reporting purposes.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021
