PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed and monitored the end-to-end lifecycle for ETF orders, including tracking incoming cash receipts and collateral, ensuring timely settlement of burst transactions.
- Analyzed Portfolio Composition Files (PCF) to identify discrepancies and troubleshoot issues, collaborating with internal teams to resolve trade and settlement exceptions.
- Resolved client inquiries regarding trade and settlement activities by researching underlying transaction data and coordinating with Global ETF Clients, Authorized Participants, and internal partners.
- Developed and refined operational reporting dashboards using **Power BI** to track efficiency metrics and support new business initiatives, providing insights to management.
- Contributed to process improvement efforts within the ETF operations team, identifying areas for automation and enhanced workflow efficiency.
- Supported new client onboarding processes by coordinating with Product Development and Technology teams to ensure successful implementation of new fund structures and product enhancements.

SKILLS

Operations – ETF Lifecycle Management, Trade Settlement, Collateral Management, Portfolio Composition File (PCF) Analysis, Client Inquiry Resolution, New Business Initiatives, Authorized Participant Onboarding.

Analytics & BI – Power BI, DAX, Data Modelling, Power Query, Tableau, R/RStudio, Statistical Analysis, Exploratory Data Analysis.

Programming & Scripting – Python, Java, Spring Boot, SQL (PostgreSQL, MySQL, Oracle), REST APIs, Pandas, NumPy, Scikit-learn.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux.

Methodologies & Tools – Agile/Scrum, Jira, Confluence, Splunk, Dynatrace.

PROJECTS

ETF Settlement Workflow Automation (HCL Technologies)

- Engineered automated Python scripts to parse and validate incoming settlement data feeds, reducing manual data entry by approximately 30% for the operations team.
- Developed a reconciliation dashboard using **Power BI** to highlight discrepancies between expected and actual settlement amounts, improving visibility for the reconciliation workflow.
- Integrated scripts with **Jira** to auto-generate tickets for settlement exceptions, streamlining the issue-tracking and resolution process for a team of 8 analysts.

Client Transaction Monitoring Dashboard (HCL Technologies)

- Built interactive dashboards in **Power BI** to monitor key metrics for a financial-services client, including transaction volumes and error rates for a daily processing load of ~15,000 transactions.
- Wrote complex **SQL** queries across PostgreSQL and Oracle databases to extract and aggregate transaction data for reporting, ensuring data accuracy for operational alerts.
- Collaborated with business analysts to gather requirements for new report features, enhancing the dashboard's utility for identifying and triaging failed payment messages.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
