PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and developed **Java Spring Boot** microservices, contributing to the Employee Platform Technology team's objective of creating secure, stable, and scalable applications.
- Executed software solutions, including **technical troubleshooting** and debugging of production code in a large corporate environment, ensuring application resiliency.
- Authored architecture and design artifacts for new features, translating high-level requirements into detailed technical specifications for **Java** applications.
- Gathered, analyzed, and synthesized data from large, diverse datasets, developing **visualizations and reporting** to inform software application improvements and operational insights.
- Contributed to **CI/CD** pipelines and agile methodologies, focusing on application security and efficient code deployment cycles.
- Collaborated with cross-functional teams to support **cloud platform integration** initiatives, ensuring seamless deployment and operation of services on **AWS**.

SKILLS

Backend Development – Java, Spring Boot, REST APIs, Microservices, Algorithms

Cloud & DevOps – AWS, EC2, S3, Lambda, CloudWatch, Docker, CI/CD, Jenkins, Git

Databases & Querying – SQL, PostgreSQL, MySQL, Oracle, Database Querying Languages

Frontend Technologies – React, Angular

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, Data Warehousing, Visualizations, Reporting

Methodologies & Tools – Agile, Scrum, Jira, Confluence, Software Development Life Cycle

PROJECTS

Enterprise Operations Dashboard Enhancement

- Developed new modules and features for a **payments operations dashboard**, enhancing transaction monitoring capabilities and operational alerting for failed payment messages.
- Collaborated with business analysts and operations teams to gather requirements for reporting enhancements, leading to the creation of **12 new operational reports** in Power BI.
- Automated data validation scripts using **Python** and **SQL** across PostgreSQL and Oracle databases, reducing manual reconciliation efforts by approximately 40%.

Internal Feature Store API Development

- Designed and implemented **REST APIs** using **Java Spring Boot** to expose curated features from an internal data warehouse to downstream consumer applications.
- Integrated the API service with **AWS Lambda** for event-driven processing of incoming data updates, handling an average of **~1,500 events per hour**.
- Wrote comprehensive unit and integration tests for the API endpoints, ensuring adherence to design constraints and improving code coverage by **22%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
