PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** microservices for the Employee Platform, focusing on secure API development and backend integrations.
- Designed and implemented **REST APIs** to support cross-service data exchange, incorporating input validation and secure coding practices across the platform.
- Contributed to full-stack development, building responsive user experiences on the frontend and ensuring reliable backend integrations for HR technology products.
- Analyzed large, diverse datasets to identify patterns and proactively suggest improvements to coding hygiene and system architecture, enhancing application resiliency.
- Executed technical troubleshooting and resolved production issues for enterprise applications, contributing to the operational stability of critical technology solutions.
- Participated in **Agile/Scrum** ceremonies, code reviews, and contributed to team culture initiatives focused on diversity and inclusion.

SKILLS

Languages – Java, JavaScript, TypeScript, SQL, Python, R

Frameworks/Libraries – Spring Boot, React, Node.js, NestJS

Cloud/Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes

Databases – PostgreSQL, MySQL, Oracle

DevOps/Tools – Jenkins, Git, Jira, Confluence, Splunk, Dynatrace

Core Concepts – System Design, Application Development, Testing, Operational Stability, SDLC, CI/CD, Agile/Scrum, Microservices Architecture, API Development (REST), Database Querying (SQL), Secure Coding Practices, Distributed Systems

PROJECTS

Employee Platform Backend Service Development

- Engineered a new **Java Spring Boot** service to manage core employee data, adhering to strict security and compliance requirements for HR technology.
- Developed robust **REST APIs** for internal system integrations, ensuring seamless data flow and reducing integration latency by approximately 15%.
- Implemented comprehensive unit and integration tests, achieving over 90% code coverage for critical service endpoints.

HR Data Visualization and Reporting Tool

- Built interactive **Power BI dashboards** to visualize key HR metrics and trends, enabling stakeholders to make data-informed decisions.
- Developed **DAX measures** and complex data models within Power BI to support detailed reporting on employee performance and engagement.
- Automated data extraction and transformation using **Power Query**, streamlining the reporting process and reducing manual effort by 40%.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
