PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and developed **Java Spring Boot** microservices for internal applications, integrating with **Microsoft 365 APIs** to support senior leader board meetings.
- Architected and implemented **secure, high-quality code** for enterprise applications, ensuring system stability and data synchronization across distributed services.
- Analyzed and refactored existing **enterprise application codebases** to enhance functionality, building new **REST APIs** that improved data accessibility for reporting.
- Automated recurring operational issues using **Python scripting**, reducing manual intervention by approximately **40%** and enhancing software stability.
- Collaborated within an **Agile Scrum** team, participating in ceremonies and contributing to CI/CD pipelines for frequent, reliable software releases.
- Transformed raw operational data into actionable insights via **SQL queries** and data analysis, supporting the development of executive-level reports.

SKILLS

Languages – Java, Python, SQL, JavaScript

Frameworks/Libraries – Spring Boot, ReactJS, pandas, NumPy, scikit-learn

Cloud/Infra – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux

Databases – PostgreSQL, MySQL, Oracle

Tools/Platforms – Jenkins, Git, Jira, Confluence, Splunk, Dynatrace, Microsoft 365

Methodologies – Agile, Scrum, CI/CD, SDLC

AI/ML – AI integration, prompt writing

PROJECTS

Internal Executive Briefing Platform (HCL Technologies)

- Developed a **Java Spring Boot** backend service to manage meeting agendas and attendee data, integrating with an internal document management system.
- Designed and implemented RESTful APIs for seamless data exchange between the briefing platform and front-end reporting dashboards, enabling real-time updates.
- Wrote comprehensive unit and integration tests to ensure the stability and reliability of the platform, achieving over **90% code coverage** for critical modules.

Automated Production Anomaly Detection (HCL Technologies)

- Created **Python scripts** to parse logs from Splunk and Dynatrace, identifying patterns indicative of production system anomalies.
- Built automated alerts triggered by identified anomalies, reducing manual triaging time for the operations team by an estimated **35%**.
- Collaborated with business analysts to define critical alerts for transaction processing workflows, ensuring timely notification of potential issues.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
