PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed native **Android applications** using **Kotlin** and **Java**, contributing to the evolution of mobile platforms for enterprise financial services.
- Built and maintained **Android SDK** and **framework components**, focusing on modularity and reusability for enhanced mobile experiences.
- Implemented **Android APIs** and platform features, ensuring seamless integration with backend services and adherence to architectural guidelines.
- Wrote comprehensive **unit and instrumentation tests** for all developed components, ensuring code quality and application stability.
- Collaborated with mobile team members and **product managers** to define requirements, refine user stories, and plan development sprints.
- Participated actively in **architectural decisions** for new Android applications, influencing design patterns and technology choices.

SKILLS

Mobile Development – Android, Kotlin, Java, Android SDK, Android Framework, Android APIs

Development Tools – GitHub Copilot, Git, Jenkins

Testing – Unit Testing, Instrumentation Testing

Architecture & Design – Modular Design, Reusable Components

Collaboration – Product Managers, Cross-functional Teams

Backend Integration – REST APIs

PROJECTS

Modular Android Component Library

- Designed and developed a reusable **Android component library** in **Kotlin** to standardize UI elements and business logic across multiple internal applications.
- Implemented a clear abstraction layer within the library to decouple components from specific business domains, improving maintainability and reducing code duplication by an estimated **30%**.
- Created example applications demonstrating the integration and usage of library components, facilitating faster adoption by other development teams within HCL.

Android SDK for Transaction Monitoring

- Developed an **Android SDK** in **Java** to facilitate real-time transaction monitoring and alerting for a financial services client's mobile banking application.
- Integrated the SDK with the client's existing backend systems via **REST APIs**, enabling the capture and transmission of critical transaction events.
- Authored detailed technical documentation and provided **post-sales support** to the client's mobile development team for seamless integration into their production environment.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
