PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and implemented **AWS IAM policies** and **OIDC configurations** to enforce least-privilege access for cross-account service roles, reducing potential attack vectors by an estimated 30%.
- Developed and debugged secure, production-ready **Python** services on **AWS Lambda**, ensuring adherence to coding standards and minimizing security vulnerabilities through rigorous code reviews.
- Executed **threat modeling** exercises for multiple internal applications interacting with the core network, identifying and mitigating potential vulnerabilities in design phases.
- Collaborated with stakeholders and business leaders to understand emergent security needs and recommend tactical modifications during periods of heightened vulnerability.
- Automated the discovery and vulnerability assessment process for a subset of organizational assets using **Python scripting** and **AWS services**, enabling faster identification of security gaps.
- Contributed to the team's culture of diversity and inclusion by actively participating in code reviews and knowledge-sharing sessions.

SKILLS

Cloud Platforms – AWS, EC2, S3, Lambda, CloudWatch, IAM, OIDC, SAML

Languages – Python, Java, SQL, Linux Shell Scripting

Security Concepts – Cybersecurity, IAM, Authentication, Threat Modeling, Vulnerability Assessment, Penetration Testing, Data Security Posture Management (DSPM)

Development Tools – Git, Jenkins, Docker, Jira, Confluence

Databases & Data Platforms – PostgreSQL, MySQL, Oracle, Redshift, Snowflake, Databricks

Infrastructure as Code – Terraform, CloudFormation

PROJECTS

Secure Cloud Infrastructure Deployment (HCL Technologies)

- Engineered secure cloud infrastructure on **AWS** using **Terraform** for a client-facing application, defining IAM roles, security groups, and network ACLs to meet strict compliance requirements.
- Implemented automated security scanning within the **Jenkins** CI/CD pipeline, flagging common vulnerabilities in **Python** and **Java** codebases before deployment, catching approximately 40% of common static analysis issues.
- Developed operational runbooks for incident response related to security alerts, detailing steps for triage, containment, and recovery for critical cloud resources.

Enterprise Authentication Service Enhancement (HCL Technologies)

- Refactored an existing authentication service to support **OIDC** and **SAML** protocols, improving interoperability with enterprise identity providers and enhancing security for **Java Spring Boot** applications.
- Collaborated with internal operations teams to integrate the enhanced authentication service, reducing manual configuration steps for new user onboarding by ~20%.
- Wrote comprehensive API documentation and conducted knowledge-transfer sessions for the support team on the new authentication flows and troubleshooting procedures.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
