PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed **data integration** and performed complex **data analysis** across disparate enterprise systems using **Python** and **SQL**.
- Built extensible **data acquisition** and **integration solutions** on **AWS**, meeting functional and non-functional requirements for enterprise clients.
- Implemented **ETL processes** to extract, transform, and distribute data from diverse sources into various **data stores** including **PostgreSQL** and **DynamoDB**.
- Provided **problem-solving expertise** and complex analysis for **business intelligence integration designs**, collaborating with Product Management and Engineering teams.
- Engineered **scalable data pipelines** using **PySpark** on **AWS EMR**, processing large volumes of data from formats like **Parquet** and **Delta Tables**.
- Contributed to **CI/CD pipelines** using **Jenkins** and **Git** for cloud deployments, integrating with **Artifactory** and utilizing **Yaml** for configuration.

SKILLS

Cloud Platforms – AWS (EMR, S3, Glue, Lambda, CloudWatch), Databricks

Data Engineering & Warehousing – Data Integration, Data Analysis, ETL, Data Modeling, Data Lake, Apache Airflow, AWS Glue, Databricks

Big Data Technologies – Spark, PySpark, Scala, EMR, Athena, RDS, Delta Tables, Parquet, ORC, Avro

Programming Languages & Scripting – Java, Python, SQL, PySpark, Scala, Bash

CI/CD & DevOps – Jenkins, Git, Artifactory, Yaml, Docker, Infrastructure as Code (Terraform/CloudFormation)

Databases – PostgreSQL, Oracle, MySQL, NoSQL (DynamoDB)

Development Tools – Jira, Confluence, GitHub Copilot, Maven

PROJECTS

Enterprise Data Lake and Analytics Platform

- Developed a distributed data lake on **AWS S3**, ingesting structured and semi-structured data from enterprise systems using **PySpark**.
- Implemented data transformation jobs using **Apache Airflow** to process raw data into curated datasets in **Parquet** format, supporting downstream analytics.
- Designed and deployed **REST APIs** with **Java Spring Boot** to provide access to curated data for internal business intelligence tools, serving an average of 500 requests per day.

Automated Production Monitoring and Alerting System

- Built a system using **Python** and **AWS Lambda** to collect logs and metrics from distributed services, integrating with **Splunk** for analysis.
- Developed automated alerting rules that reduced P1 incident response time by approximately 20% by identifying issues proactively.
- Created **SQL queries** against **PostgreSQL** to validate data integrity and reconcile transaction flows within the financial operations dashboard.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
