PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Integrated disparate enterprise systems by building extensible **data acquisition and integration solutions** using Python and Java Spring Boot, processing approximately **1.5 TB of data** weekly.
- Developed and deployed **data pipelines** on AWS Lambda and EC2 for ETL processes, transforming and distributing data across S3 and PostgreSQL, supporting critical reporting needs.
- Provided complex analysis of data to develop **business intelligence integration designs**, interfacing with Product Management and System Admin teams to meet functional and non-functional requirements.
- Engineered scalable, high-performance **distributed services** in Java Spring Boot, developing REST APIs that handled ~500 requests per second during peak loads.
- Managed production support for enterprise applications, performing **incident response** and troubleshooting using Splunk and Dynatrace, resolving an average of **8 P1/P2 incidents** per month.
- Collaborated with remote and geographically distributed teams to build and integrate software components, focusing on making them easily consumable by other products.

SKILLS

Cloud & Big Data – AWS (EMR, S3, Glue, Lambda, CloudWatch), Apache Airflow, Big Data Technologies, Data Warehousing, Data Lake, Data Security concepts, Databricks, Hadoop, Spark, PySpark, Scala, Parquet, ORC, Avro, Delta Lake, Iceberg, Athena, RDS, Databricks

Programming & API – Java, Spring Boot, Python, REST APIs, API Standards, Flask, FastAPI, Node.js, NestJS, TypeScript

Databases – PostgreSQL, MySQL, Oracle, NoSQL, DynamoDB

CI/CD & IaC – Jenkins, Git, Artifactory, Yaml, Maven, Infrastructure as Code (IaC), Terraform, CloudFormation

BI & Analytics – Power BI, Tableau, DAX, Power Query, Data Modeling, Data Visualization, Business Intelligence, R, RStudio

Development Tools – Docker, Jira, Confluence, Linux, GitHub Copilot

Methodologies – Agile, Scrum

PROJECTS

Enterprise Data Integration Platform (HCL Technologies)

- Designed and implemented a scalable data integration solution using **Python and Java Spring Boot** to aggregate data from multiple enterprise systems, processing over **1 TB of transactional data** weekly.
- Developed **ETL pipelines** on AWS Lambda and EC2, transforming raw data into structured formats compatible with PostgreSQL and S3 data lakes, enabling downstream analytics.
- Integrated with internal product development teams and System Admin groups to ensure seamless data flow and adherence to **data security concepts** across interconnected systems.

Financial Operations Analytics Dashboard (HCL Technologies)

- Built and maintained **Power BI dashboards** to monitor transaction flows and operational alerts for a financial-services client, visualizing key performance indicators for failed payment messages.
- Wrote complex **SQL queries** across PostgreSQL and Oracle to extract, validate, and reconcile operational data, supporting business analysts in identifying process bottlenecks.
- Collaborated with cross-functional operations teams to gather requirements for new dashboard features and provided UAT support for implemented changes.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
